Kelley Guerrero, Class of 2025 Vice Principal
Rod Brundidge, Class of 2026 Vice Principal
Kenneth Margolin, Athletic Director

Greetings and welcome to Franklin High School! Our dedicated administration, teachers, and support staff are fully committed to creating a secure, positive, and intellectually stimulating learning environment for all our students.

At Franklin High School, we have a wealth of opportunities to offer our students. From challenging AP Courses and comprehensive Core Subjects to captivating elective choices and an acclaimed fine arts, visual arts, and performing arts program, our students have the chance to excel academically and creatively. We encourage each family to collaborate with their high school student in setting goals, and we challenge our students to strive for those goals with the unwavering support of our teaching staff and parents. By working together, we ensure that each student reaches their full potential both inside and outside the classroom.

The start of the school year brings excitement but it may also present its challenges, but together as a community, we can discover how best to meet the needs of our students. We firmly believe that a united community fosters student achievement and success, as we prepare our students for their future endeavors in post-secondary education and beyond.

For me, Franklin has been my educational home for nearly my entire career. I've had the privilege of serving as a middle school special education science and math teacher for ten years, followed by four years as a Dean at Franklin Middle School. Subsequently, I served as Vice Principal at Sampson G. Smith School for four years and then had the honor of being the Principal of Franklin Middle School @ Hamilton Street Campus for another four years. Now, I'm in my third year as Principal of my Alma Mater, Franklin High School.

On behalf of the FHS Administrative Team, I extend my best wishes for a fantastic school year. Despite the challenges of the times we live in, it is an exhilarating moment, and our students need our support more than ever.

To all our students, I wish you a successful and fulfilling school year. Go, Warriors!

STRENGTH OF THE WARRIOR
