Supervisor of Intervention Services
Ms. Suzanne Ackley

November 2, 2018

Dear Parent/Guardian,

We are excited to inform you that this school year we are launching full implementation of the New Jersey Tiered System of Supports. Our goal in the opening weeks of school has been to review data sources and gather additional information by engaging with students in small groups in their general education classrooms to determine whether they would benefit from our services.

After reviewing our data, we will communicate to parents/guardians via a letter that we intend to provide NJTSS services to students who meet the criteria for academic intervention support in ELA and/or Mathematics. You can find additional information about the district's NJTSS program on our district website: <https://www.franklinboe.org/Page/17316>

If you any questions about the program, please contact me at the following email address: sackley@franklinboe.org.

Sincerely,

Suzanne Ackley
