Pine Grove Manor School	-7%	-13%	-22%	-12%	\$26,575
Sampson G. Smith School	-12%	-8%	2%	-9%	\$23,925
<b>Grand Total</b>	<b>-16%</b>	<b>-10%</b>	<b>-19%</b>	<b>-13%</b>	<b>\$442,626</b>

This report highlights your organization's energy saving results and avoided energy costs for the current period compared to the same period in the base year.

A negative % change = a reduction in energy use and a positive % change = an increase in energy use. The % Change Total Energy column combines the electric and natural gas/inventoried fuel results by converting them to the common reporting unit of British Thermal Units (Btu) for a measurement of total energy change. Electric Demand is a measurement of the peak electric usage over the course of a utility billing cycle and is billed as a separate component in most commercial electric bills. Avoided Cost is a calculation of energy dollars that would have been spent had energy not been saved. © CLASS 5, Inc.
