Students have a right to wear stylish clothes of their choice as long as those clothes are appropriate for school, are not dangerous to health and safety, and do not create a substantial or material disruption of the school. Students have a responsibility to dress neatly and appropriately, to be clean, and well groomed.

TRANSPORTATION RULES

Pupils transported on school busses are under the authority of, and directly responsible to, the driver of the bus. The purpose of bus discipline procedures is to provide measures for corrective action when a student's behavior is such that it constitutes a hazard. This would include any deliberate misbehavior that might interfere with the safe operation of the bus. For the purpose of this regulation, student transportation shall be defined as including the loading, en-route traveling, and unloading of students to or from school or a school-sponsored activity. In order to assure orderly and safe transportation of all passengers many of our busses are equipped with on board audio-video monitoring systems. All passengers are required to observe the following rules at all times.

1. Complying with the bus driver's instructions at all times is essential and expected.
2. Remaining seated when the bus is in motion is required. Fasten your seatbelt when seated and leave it fastened until you arrive at your final destination.
3. Using or opening the emergency exit unless authorized by the bus driver, school, or police official is strictly prohibited.
4. Smoking on a school bus is prohibited by law and, on the first offense, shall be cause for denial of transportation.
5. Hitting, fighting, harassing, scuffling, making loud and unnecessary noise, acting boisterous or participating in gang related activity, is distracting to the driver, and is not permitted.
6. Being disrespectful or abusive to the bus driver or any other staff or student in conduct or language is not permitted.
7. Showing your Student I.D., grades six (6) through twelve (12), to the bus driver upon request is required.

9. Using profanity and other foul language or gestures towards the bus driver, staff, or other students is not permitted.
10. Throwing articles on or out of the bus is not permitted.
11. Placing head, arms, or legs outside the window of the bus is strictly prohibited.
12. Eating or drinking on the bus is not allowed. Keep the bus clean and free of paper or other litter.

17. Showing issued bus passes when called upon to do so by the bus driver or other school authority is required. Failure to produce the bus pass upon request of the driver shall be reported to the appropriate school administrator. A student shall not allow the use of his or her bus pass by another student.
18. Behaving orderly on the bus and at the bus stop is required. In addition, any reported incidents occurring at, to, or from the bus stop will be investigated and could result in disciplinary action as well as in police action.

19. Carrying equipment unrelated to authorized school activities will not be permitted i.e., out of season sports equipment. Wearing of skates, roller blades, heelies and the possession of skateboards is not permitted on the bus.
20. **Parents are not permitted to board the bus.**

DISCIPLINARY ACTIONS FOR INAPPROPRIATE BUS BEHAVIOR

All students are expected to follow the standards for behavior outlined in the Student Code of Conduct regardless of whether they are in the school building, on school grounds, on the school bus or at the bus stop, or attending any school sponsored event. While on the school bus, students are expected to follow the directives of the bus driver the same as they would their teacher in the classroom.

Inappropriate student behavior on the school bus will be addressed in accordance with the Student Code of Conduct and administered by the child's building principal or vice principal similarly to other student misbehaviors that occur in the school building or classroom. However, to insure safe student transportation, the following conduct is specifically prohibited on the school bus and violations may result in revocation of school transportation privileges:

- Fighting
- Smoking
- Exiting the bus from the emergency exits without being directed to do so by the bus driver
- Throwing objects out of the bus window
- Purposely damaging the bus
- Any other behaviors that occur on the bus that may jeopardize the health, safety, or well-being of the other individuals that is either in or around the bus.

The sequence of disciplinary action for more serious infraction are outlined as follows:

First Offense - An administrative conference shall be held with the student. The student shall be given a minimum of three (3) and a maximum of five (5) days out of school suspension. The parent/guardian shall be advised of the action taken by the administration via telephone and by written notice. A personal re-entry conference shall be held with the parent/guardian prior to the student's return to school.

Second Offense - An administrative conference shall be held with the student. The student shall be given a minimum of five (5) and a maximum of seven (7) days out of school suspension. The parent/guardian shall be advised of the action taken by the administration via telephone and by written notice. A personal re-entry conference shall be held with the parent/guardian prior to the student's return to school.

Third Offense - An administrative conference shall be held with the student. The student shall be given a minimum of five (5) and a maximum of ten (10) days out of school suspension and a ten (10) day suspension of bus privileges. The parent/guardian shall be advised of the action taken by the administration via telephone and by written notice. A personal re-entry conference shall be held with the parent/guardian prior to the student's return to school.

Fourth and All Subsequent Offenses – An administrative consultation shall be held with the student, the parent/guardian, and when possible, the District Transportation Supervisor. The student shall be given a minimum of five (5) days of out of school suspension and a minimum of thirty (30) days of bus privilege suspension. Student may receive permanent denial of bus privileges at the discretion of the building principal.

Notes:

1. When a student's bus privileges have been suspended for misconduct, it is the parent/guardian's responsibility to provide the child with transportation to and from school.
2. Any person, including but not limited to students, school employees, parents, other adults or juveniles, who enter on any school property, any school building, or any school bus, may be video and audio taped as part of the measures taken by the District to provide a safe, secure, and orderly environment. Information recorded on school surveillance equipment may be used as evidence in disciplinary and/or legal proceedings.

ATTENDANCE REGULATIONS

School achievement begins with regular attendance. Parents/guardians must ensure that all school-aged children in their care are in school on time daily. Additionally, school personnel must communicate any attendance problems or concerns to parents/guardians in a timely manner.

The most effective strategy to prevent unexcused and excessive absence is to be proactive, with the school, family, and the community working together. To this end, school personnel report to the building principal or his/her designee their concerns about student behaviors that may be precursors to attendance problems. The building administration along with other appropriate school staff will work to address continuing student attendance issues by meeting with the student and parent/guardian and through other appropriate interventions and referrals.

The New Jersey Administrative Code 6A:16-7.8 Attendance and BOE Policy and Regulation # 5220 apply to attendance matters:

1. Each District Board of Education shall develop, adopt and implement policies and procedures regarding the attendance of students, pursuant to N.J.S.A. 18A:38-25 through 31 and N.J.A.C.6A:32-8 and 13.1, at the public schools of the District or day schools in which students are provided with equivalent instruction, according to the requirements of N.J.S.A. 18A:38-25.
2. Within 10 days of the start of the school year, a School District shall determine whether any re-entering student who has not attended school that year has an excused absence or has transferred, withdrawn or dropped out of the School District. N.J.A.C. 6A:32-8.2.
3. For up to four (4) cumulative unexcused absences, the District shall:
 - a. make a reasonable attempt to notify the student's parents of each unexcused absence prior to the start of the following school day;
 - b. conduct an investigation of the cause of each unexcused absence, including contact with the student's parents;
 - c. develop an action plan in consultation with the student's parents designed to address patterns of unexcused absences, if any, and to have the child return to school and maintain regular attendance.
4. For between five (5) and nine (9) cumulative unexcused absences, the District shall:
 - a. make a reasonable attempt to notify the student's parents of each unexcused absence prior to the start of the following school day;
 - b. conduct a follow-up investigation, including contact with the student's parents, to determine the cause of each unexcused absence;
 - c. revise the action plan, as needed, to identify patterns of unexcused absences and establish outcomes based upon the student's needs and specify the interventions for achieving the outcomes, supporting the student's return to school and regular attendance and
 - d. refer the student to the building level Intervention & Referral Services Team (I&RS Team) or CST case manager for classified students.
5. Any student between the ages of 6 to 16 who accumulates ten (10) cumulative unexcused absences from school or who continues to exhibit a pattern of unexcused absence will be referred by the school administration to the District Attendance Officer. The District Attendance Officer is obligated to make a mandatory referral to the Family Crisis Intervention Unit which serves as the court program required by the New Jersey Office of the Court.

6. A continued pattern of unexcused absence will result in the District filing charges against the student's parent or guardian and/or the student being recommended to the building principal for removal from the District attendance register.
7. Residency requirements – Under N.J.S.A. 18A:38-1(a), a student who is under the age of 18 is “domiciled” in a School District, and thereby entitled to attend school in the District, if his or her parent or legal guardian is “domiciled” in that District. A student who has reached the age of 18 may establish his or her own domicile. Domicile is the place where a person lives in his or her fixed, permanent home. This home must be the place to which he or she intends to return when he or she goes away, and from which he or she has no intention of moving anytime soon. A person can have only one “domicile” at a time, even if he or she has more than one home.
8. All students must have their current address on record. Parents of students who move to a new address must go to Parent Information and submit proof of their new address.
9. It should be noted that all student absences, whether they are classified excused or unexcused, make up the total student absence count. Students who accumulate more than 18 days of total absences from school have not satisfied the State of New Jersey attendance requirement for promotion to the next grade level or graduation from high school. Parents/Guardians of students who have exceeded 18 days of absences from school can arrange a meeting with the building principal to review the child's attendance and other school records to determine whether any special consideration is warranted.

A chronic pattern of unexcused student absence may also result in student retention in grade level or student ineligibility to earn a high school diploma or participate in high school graduation. Principals will notify parents/guardians in writing when their child has accumulated four (4), eight (8), and ten (10) days of unexcused absences. It is hoped that through communicating and working together, we will be able to develop and implement effective strategies that will result in improved student attendance and academic achievement.

The Board of Education believes that the regular attendance of students in school is critical to its educational mission. Regular attendance of students in the classroom allows for continuity in the instructional process, which enables the students to complete the Core Curriculum Content Standards and District curriculum requirements. Therefore students are expected to be present, on time and prepared for each class and each day that the District schools are open for educational purposes, unless their absence or lateness is deemed “excused” as set forth in this student code of conduct.

Students are expected to make up any work they may have missed when they are absent from school or class.

DEFINITIONS PERTAINING TO ATTENDANCE

- “Attendance” is a student's presence in school and in the classroom to which he or she is assigned at the times scheduled for instruction or other approved school activities.
- “Truancy” exists when a student is absent from school for all or part of the school day and the parents/guardians are unaware of the absence and have not provided the school with written verification to support the absence.
- A school day shall consist of not less than four hours of actual instruction. In order to be recorded as present for the full day, a student must be present for at least four hours during that school day.
- A student shall be considered absent from school if they participate in less than 4 instructional hours during the school day.

- When a student participates in an approved school activity such as a field trip, school related meeting, cooperative education assignment, independent study program or athletic competition, he/she may be considered to be in attendance even though he/she is not physically present in the school facility.
- "Excused absence" is a student's absence from school for a full day or a portion of a day for a reason approved by the Board as an excused absence. Further, in order for a student's absence to be recorded as excused, the student's parent/guardian must submit a written reason for the absence. This written note must be submitted to the school's attendance clerk within five (5) days of the student's return to school.

EXCUSED/UNEXCUSED ABSENCES

Absences from school, including absence for any portion of the day, shall be considered excused under the following conditions:

- Student illness (physician's note will be required for continuous absences that exceed 3 consecutive days and will also be required for students who have been absent because of contagious or infectious diseases or conditions as designated by the New Jersey State Department of Health);
- Student recovery from an accident (as supported by a physician's note);
- Requirements of a student's individual health care plan;
- A death in the student's immediate family
- Quarantine;
- Observance of the student's religion on a day approved for that purpose by the State Board of Education. This specific information may be found on the New Jersey Board of Education website;
- The student's suspension from school (excluding a bus suspension);
- Requirements of the student's Individualized Education Program (IEP);
- Alternate short or long term accommodations for students with disabilities;
- The student's required attendance in court (copies of court papers should be submitted);
- Interviews with an admissions officer of an educational institution or other education opportunities such as college visitations (limit of three);
- Necessary and unavoidable medical or dental appointments that cannot be scheduled at a time other than the school day;
- Participation in New Jersey's "Take Your Child To Work Day";
- Such other cause, that in the judgment of the building principal, constitutes a good and sufficient cause for absence from school

"Unexcused absence" is a student's absence for all or part of a school day for any reason which do not fall into one of the Board approved categories of excused absences.

Examples of student unexcused absences include, but are not limited to the following:

- Family travel or vacations;
- Performance of household or babysitting duties; and
- Other daytime activities unrelated to the school program.

REQUEST FOR EXTENDED STUDENT ABSENCES BEYOND TEN CONSECUTIVE SCHOOL DAYS

The District recognizes the need for some parents to request that a child be absent from school for an extended period of time. All such request should be made in writing and addressed to the building principal.

When the request results in the child missing school for ten or more consecutive days of school, the District requires that the parent/guardian sign the student out of school and then re-register the student upon their return to the District.

POSSIBLE CONSEQUENCES FOR A STUDENT WHO REGULARLY MISSES SCHOOL

- Denial of participation in co-curricular activities and extra-curricular activities
- Negative impact on student grades
- After school detention
- In-school suspension
- Loss of course credit (high school only)
- Referral to Intervention & Referral Services (I&RS)
- Referral to the County Family Crisis Intervention Unit
- Referral to the Division of Child Protection and Permanency (DCP&P)
- Retention in grade level
- Failure to satisfy grade promotion or graduation requirements
- Referral for outside interventions through the local courts
- Referral for alternative school placement or other alternative education programs outside of the public school

It is important to remember that parents/guardians should submit a note or medical documentation explaining each student absence. Such notes must be submitted within five (5) days of the student's return to school in order to consider the period of absence as excused.

It is also important to note that absences that occurred for reasons not included in the Attendance Policy or absences which are not accompanied with a written explanation within (5) days for an excuse will result in the student absence being recorded as unexcused. Students who accumulate ten (10) unexcused absences or who show a pattern of truancy will be referred to the Family Crisis Intervention Unit. Additional unexcused absences or truancy will result in referral to the Franklin Township Municipal Court.

STUDENTS REPORTING LATE TO SCHOOL OR REQUESTING TO LEAVE SCHOOL EARLY

It is imperative for students to be on time at the beginning of the school day. Student attendance is recorded during this time.

Schools are required to admit students to school regardless of the time they arrive. However, students who arrive late to school must report first to the appropriate administrative office to be recorded and to obtain a pass before being admitted to any class. At the elementary school level, grades K – 4, it is appropriate for a parent/guardian to sign the late student into school with the attendance clerk.

Excessive unexcused lateness to school or class will result in the appropriate level of school discipline. (Refer to page 57 and 59 of the Discipline Matrix).

The District recognizes that from time to time compelling circumstances will necessitate that a student arrives late to school or be dismissed before the end of the school day.

The following are acceptable reasons for a late arrival or early dismissal:

- Medical or dental appointments which cannot be scheduled outside of school hours;
- Requirements of a student's individual health care plan;
- Requirements of the student's Individual Education Program (IEP);
- Alternate short or long term accommodations for students with disabilities
- Medical disability;
- Motor vehicle driver's test;
- Interviews with an admissions officer of an educational institution or other education opportunities such a college visitations (limit of three);
- Family emergency;
- Court appearance;

Students are expected to make up any work they may have missed when they are absent from school or class.

(Also refer to "Class Cutting" and "Truancy" in the Discipline Matrix on pages 57 and 59.)

Note: If you know that your child will be absent from school, you should call the school to verify the absence.

PORTABLE COMMUNICATION DEVICES

However, it is a violation of the Student Code of Conduct to use such devices in a manner that will disrupt the school environment. All portable communication devices must be turned off while students are in school or participating in school-related activities during the regular school day, whether students are in class or not. If parents/guardians have an urgent need to get in touch with their children during the school day, they should call the main office of their child’s school. The main office staff will contact the child. Students who use these devices during the school day will be treated as any other student who disrupts class. If the portable communication device continues to be a disruption, it is subject to confiscation and given to the school administration until the student’s parent/guardian comes to the school to retrieve it. *The District recognizes that there are students with either an I.E.P. or with 504 accommodations that permit the student to use portable electronic communication devices. For those students such items will only be confiscated when it is not a violation of the I.E.P. or 504 accommodations.*

A. Policy Statement

The Board of Education prohibits acts of harassment, intimidation, or bullying of a student. A safe and civil environment in school is necessary for students to learn and achieve high academic standards. Harassment, intimidation, or bullying, like other disruptive or violent behaviors, is conduct that disrupts both a student's ability to learn and a school's ability to educate its students in a safe and disciplined environment. Harassment, intimidation, or bullying is unwanted, aggressive behavior that may involve a real or perceived power imbalance. Since students learn by example, school administrators, faculty, staff and volunteers should be commended for demonstrating appropriate behavior, treating others with civility and respect, and refusing to tolerate harassment, intimidation, or bullying.

For the purposes of this Policy, the term "parent," pursuant to N.J.A.C. 6A:16-1.3, means the natural parent(s) or adoptive parent(s), legal guardian(s), foster parent(s), or parent surrogate(s) of a student. Where parents are separated or divorced, "parent" means the person or agency which has legal custody of the student, as well as the natural or adoptive parent(s) of the student, provided such parental rights have not been terminated by a court of appropriate jurisdiction.

B. Harassment, Intimidation, and Bullying Definition

“Harassment, intimidation, or bullying” means any gesture, any written, verbal or physical act, or any electronic communication, as defined in N.J.S.A. 18A:37-14, whether it be a single incident or a series of incidents that:

1. Is reasonably perceived as being motivated by either any actual or perceived characteristic, such as race, color, religion, ancestry, national origin, gender, sexual orientation, gender identity and expression, or a mental, physical or sensory disability, or by any other distinguishing characteristic;
2. Takes place on school property, at any school-sponsored function, on a school bus, or off school grounds, as provided for in N.J.S.A. 18A:37-15.3;
3. Substantially disrupts or interferes with the orderly operation of the school or the rights of other students; and that
 - a. A reasonable person should know, under the circumstances, that the act(s) will have the effect of physically or emotionally harming a student or damaging the student's property, or placing a student in reasonable fear of physical or emotional harm to his/her person or damage to his/her property; or
 - b. Has the effect of insulting or demeaning any student or group of students; or
 - c. Creates a hostile educational environment for the student by interfering with a student's education or by severely or pervasively causing physical or emotional harm to the student.

Schools are required to address harassment, intimidation, and bullying occurring off school grounds, when there is a nexus between the harassment, intimidation, and bullying and the

school (e.g., the harassment, intimidation, or bullying substantially disrupts or interferes with the orderly operation of the school or the rights of other students).

“Electronic communication” means a communication transmitted by means of an electronic device, including, but not limited to: a telephone, cellular phone, computer, or pager.

C. Student Expectations

The Board expects students to conduct themselves in keeping with their levels of development, maturity and demonstrated capabilities with proper regard for the rights and welfare of other students and school staff, the educational purpose underlying all school activities and the care of school facilities and equipment consistent with the Code of Student Conduct.

The Board believes that standards for student behavior must be set cooperatively through interaction among the students, parents, school employees, school administrators, school volunteers, and community representatives, producing an atmosphere that encourages students to grow in self-discipline. The development of this atmosphere requires respect for self and others, as well as for school district and community property on the part of students, staff, and community members.

Students are expected to behave in a way that creates a supportive learning environment. The Board believes the best discipline is self-imposed, and it is the responsibility of staff to use instances of violations of the Code of Student Conduct as opportunities to help students learn to assume and accept responsibility for their behavior and the consequences of their behavior. Staff members who interact with students shall apply best practices designed to prevent student conduct problems and foster students’ abilities to grow in self-discipline.

The Board expects that students will act in accordance with the student behavioral expectations and standards regarding harassment, intimidation, and bullying, including:

1. Student responsibilities (e.g., requirements for students to conform to reasonable standards of socially accepted behavior; respect the person, property and rights of others; obey constituted authority; and respond to those who hold that authority);
2. Appropriate recognition for positive reinforcement for good conduct, self-discipline, and good citizenship;
3. Student rights; and
4. Sanctions and due process for violations of the Code of Student Conduct.

Pursuant to N.J.S.A. 18A:37-15(a) and N.J.A.C. 6A:16-7.1(a)1, the district has involved a broad-base of school and community members, including parents, students, instructional staff, student support services staff, school administrators, and school volunteers, as well as community organizations, such as faith-based, health and human service, business and law enforcement, in the development of this Policy. Based on locally determined and accepted core ethical values adopted by the Board, pursuant to N.J.A.C. 6A:16-7.1(a)2, the Board must develop guidelines for student conduct pursuant to N.J.A.C. 6A:16-7.1. These guidelines for student conduct will take into consideration the developmental ages of students, the severity of the offenses and students’ histories of inappropriate behaviors, and

the mission and physical facilities of the individual school(s) in the district. This Policy requires all students in the district to adhere to the rules established by the school district and to submit to the remedial and consequential measures that are appropriately assigned for infractions of these rules.

Pursuant to N.J.A.C. 6A:16-7.1, the Superintendent must annually provide to students and their parents the rules of the district regarding student conduct. Provisions shall be made for informing parents whose primary language is other than English.

The district prohibits active or passive support for acts of harassment, intimidation, or bullying. Students are encouraged to support other students who:

1. Show distain for acts of harassment, intimidation, and bullying when they see them;
2. Constructively attempt to stop acts of harassment, intimidation, or bullying;

The following factors, at a minimum, shall be given full consideration by school administrators in the implementation of appropriate consequences and remedial measures for each act of harassment, intimidation, or bullying by students.

The appropriate remedial action may also include a behavioral assessment or evaluation including, but not limited to, a referral to the Child Study Team as appropriate; and supportive interventions and referral services, including those at N.J.A.C. 6A:16-8.

Consequences for a student who commits an act of harassment, intimidation, or bullying are those that are varied and graded according to the nature of the behavior; the nature of the student's disability, if any, and to the extent relevant; the developmental age of the student; and the student's history of problem behaviors and performance consistent with the Board's approved Code of Student Conduct and N.J.A.C. 6A:16-7, Student Conduct. The use of negative consequences should occur in conjunction with remediation and not be relied upon as the sole intervention approach.

Remedial measures shall be designed to correct the problem behavior, prevent another occurrence of the problem, protect and provide support for the victim of the act, and take

corrective action for documented systemic problems related to harassment, intimidation, or bullying.

Consequences for acts of harassment, intimidation or bullying are identified in the Code of Student Conduct and range from the minimum level of a conference to a level five offense which allows for the expulsion of the student

The following remedial measures may be considered for the student exhibiting bullying behavior: counseling; restitution and restoration; mediation; behavioral assessment or evaluation, including, but not limited to, a referral to the child study team as appropriate; and/or the development of a behavioral management plan.

Consequences and Appropriate Remedial Actions – Adults

The district will also impose appropriate consequences and remedial actions to an adult who commits an act of harassment, intimidation, or bullying of a student. Consequences and appropriate remedial actions for any staff member who commits an act of harassment, intimidation or bullying may range from behavioral interventions up to disciplinary charges that could result in suspension or termination.

Target/Victim Support

Districts should identify a range of strategies and resources that will be available to individual victims of harassment, intimidation, and bullying, and respond in a manner that provides relief to victims and does not stigmatize victims or further their sense of persecution. The type, diversity, location, and degree of support are directly related to the student's perception of safety.

Sufficient safety measures should be undertaken to ensure the victims' physical and social-emotional well-being and their ability to learn in a safe, supportive, and civil educational environment.

Examples of support for student victims of harassment, intimidation, and bullying include:

1. Teacher aides;
2. Hallway and playground monitors;
3. Partnering with a school leader;
4. Provision of an adult mentor;
5. Assignment of an adult "shadow" to help protect the student;
6. Seating changes;
7. Schedule changes;
8. School transfers;
9. Before- and after-school supervision;
10. School transportation supervision;
11. Counseling; and
12. Treatment or therapy.

E. Harassment, Intimidation, and Bullying Reporting Procedure

The Board of Education requires the Principal at each school to be responsible for receiving complaints alleging violations of this Policy. All Board members, school employees, and volunteers and contracted service providers who have contact with students are required to

verbally report alleged violations of this Policy to the Principal or the Principal's designee on the same day when the individual witnessed or received reliable information regarding any such incident. All Board members, school employees, and volunteers and contracted service providers who have contact with students, also shall submit a report in writing to the Principal within two school days of the verbal report.

The Principal or designee will inform the parents of all students involved in alleged incidents, and, as appropriate, may discuss the availability of counseling and other intervention services. The Principal or designee shall take into account the circumstances of the incident when providing notification to parents of all students involved in the reported harassment, intimidation, or bullying incident and when conveying the nature of the incident, including the actual or perceived protected category motivating the alleged offense. The Principal, upon receiving a verbal or written report, may take interim measures to ensure the safety, health, and welfare of all parties pending the findings of the investigation.

Students, parents, and visitors are encouraged to report alleged violations of this Policy to the Principal on the same day when the individual witnessed or received reliable information regarding any such incident.

A person may report, verbally or in writing, an act of harassment, intimidation, or bullying committed by an adult or youth against a student anonymously. The Board will not take formal disciplinary action based solely on the anonymous report.

A Board member or school employee who promptly reports an incident of harassment, intimidation, or bullying and who makes this report in compliance with the procedures set forth in this Policy, is immune from a cause of action for damages arising from any failure to remedy the reported incident.

In accordance with the provisions of N.J.S.A. 18A:37-18, the harassment, intimidation, and bullying law does not prevent a victim from seeking redress under any other available law, either civil or criminal, nor does it create or alter any tort liability.

The district may consider every mechanism available to simplify reporting, including standard reporting forms and/or web-based reporting mechanisms. For anonymous reporting, the district encourages the use of its web-based reporting mechanism.

A school administrator who receives a report of harassment, intimidation, and bullying from a district employee, and fails to initiate or conduct an investigation, or who should have known of an incident of harassment, intimidation, or bullying and fails to take sufficient action to minimize or eliminate the harassment, intimidation, or bullying, may be subject to disciplinary action.

- g. Execute such other duties related to harassment, intimidation, or bullying as requested by the Principal or district Anti-Bullying Coordinator.

G. Harassment, Intimidation, and Bullying Investigation

The Board requires a thorough and complete investigation to be conducted for each report of violations and complaints which either identify harassment, intimidation, or bullying or describe behaviors that indicate harassment, intimidation, or bullying.

Principal's Preliminary Determination

However, prior to initiating the investigation, the Principal or designee, in consultation with the Anti-Bullying Specialist, may make a preliminary determination as to whether the reported incident or complaint, assuming all facts presented are true, is a report within the scope of the definition of harassment, intimidation, and bullying under the Anti-Bullying Bill of Rights Act, N.J.S.A. 18A:37-14. The Superintendent or designee may sign-off on the preliminary determination.

The Principal or designee, upon making a preliminary determination the incident or complaint is not within the scope of the definition of harassment, intimidation, and bullying, shall inform the parents of the parties involved, who may appeal the preliminary

determination to the Board of Education and thereafter to the Commissioner of Education in accordance with N.J.A.C. 6A:3.

The Principal or designee, in consultation with the Superintendent or designee, will appoint a staff member to complete these investigations.

The investigation shall be completed and the written findings submitted to the Principal as soon as possible, but not later than ten school days from the date of the written report of the incident. Should information regarding the reported incident and the investigation be received after the end of the ten-day period, the school Anti-Bullying Specialist shall amend the original report of the results of the investigation to ensure there is an accurate and current record of the facts and activities concerning the reported incident.

The Principal shall proceed in accordance with the Code of Student Conduct, as appropriate, based on the investigation findings. The Principal shall submit the report to the Superintendent within two school days of the completion of the investigation and in accordance with the Administrative Procedures Act (N.J.S.A. 52:14B-1 et seq.). As appropriate to the findings from the investigation, the Superintendent shall ensure the Code of Student Conduct has been implemented and may decide to provide intervention services, order counseling, establish training programs to reduce harassment, intimidation, or bullying and enhance school climate, impose discipline, or take or recommend other appropriate action, as necessary.

The Superintendent shall report the results of each investigation to the Board of Education no later than the date of the regularly scheduled Board of Education meeting following the completion of the investigation. The Superintendent's report shall include information on any consequences imposed under the Code of Student Conduct, any services provided, training established, or other action taken or recommended by the Superintendent.

Parents of involved student offenders and targets/victims shall be provided with information about the investigation, in accordance with Federal and State law and regulation. The information to be provided to parents shall include the nature of the investigation, whether the district found evidence of harassment, intimidation, or bullying, and whether consequences were imposed or services provided to address the incident of harassment, intimidation, or bullying. This information shall be provided in writing within five school days after the results of the investigation are reported to the Board of Education.

A parent may request a hearing before the Board of Education after receiving the written information about the investigation. Any request for such a hearing shall be filed with the Board Secretary no later than sixty calendar days after the written information is provided to the parents. The hearing shall be held within ten business days of the request. The Board of Education shall conduct the hearing in executive session, pursuant to the Open Public Meetings Act (N.J.S.A. 10:4-1 et seq.), to protect the confidentiality of the students. The range of ways in which school staff will respond shall include an appropriate combination of counseling, support services, intervention services, and other programs. District-wide responses can comprise of adoption of school-wide programs, including enhancing the school climate, involving the community in policy review and development, providing professional development coordinating with community-based organizations (e.g., mental health, health services, health facilities, law enforcement, faith-based organizations), launching harassment, intimidation, and bullying prevention campaigns.

DRUGS, ALCOHOL, TOBACCO, STEROIDS (SUBSTANCE ABUSE)

Board Policy 5530 and its accompanying regulation pertain to the education of our students with regard to the use of drugs, alcohol, tobacco and steroids. This policy and regulation also govern the identification, remediation, examination, treatment, discipline and, where applicable, the readmission to school, of those students who use, possess, distribute or been suspected of being under the influence of drugs, alcohol, tobacco or steroids.

The following summarizes some important points in this policy, regulation and the applicable law in this area. Parents/Guardians and students are encouraged to review the entire policy and regulation available through the District website. This is intended only as a summary and this does not revise or amend applicable policies/regulations in any way. In the event of any differences between this summary and any policies or regulations, the policies and regulations shall control.

EDUCATION PROGRAM

The District has developed a comprehensive program of drug, alcohol, tobacco and steroid education. Pursuant to N.J. S. A. 18A:40A-1 *et seq.*, a Board approved comprehensive drug, alcohol, tobacco and steroid education has been infused in the health curriculum, grades 7-12 offering a minimum of 10 clock hours per school year.

IDENTIFICATION AND REMEDIATION OF STUDENTS

The District has developed a process to identify and remediate students involved with drugs, alcohol, tobacco and steroids. If a teacher, administrator, guidance counselor or other staff member believes that the student may be a substance abuser, that is that he or she may be involved with drugs, alcohol, tobacco or steroids, *but that the student is not presently under the influence of these substances*, the teacher, administrator, guidance counselor must notify the Student Assistance Counselor [SAC]. Additionally students and parents/guardians may also seek the advice of the SAC's. The SAC will then set up an interview with the student to assess the extent of the student's involvement with these substances and, where appropriate, refer pupils and their families to organizations and agencies approved by the Department of Health to offer competent professional treatment. Treatment will *not* be at the expense of the District.

EXAMINATION OF STUDENTS

The District has developed the following procedure for the examination and treatment of students suspected of being under the influence of drugs, alcohol, tobacco, or steroids to determine the extent of the student's drug or alcohol use or dependency.

- When it appears to any teaching staff member, school nurse or other educational personnel that a student may be under the influence of substances, as defined in law, including but are not limited to, alcohol, controlled dangerous substances and anabolic steroids, the teaching staff member, school nurse or other educational personnel shall report the matter as soon as possible to the school nurse, the Student Assistance Coordinator and the principal or designee in addition to completing the Referral for Medical Evaluation and Drug/Alcohol Screen Form.¹
- The principal or designee shall immediately notify the parents/guardians and the Superintendent/designee.
- The student will receive a preliminary screen conducted by the school nurse and the principal/designee shall arrange for an **immediate examination of the student**, including alcohol/drug screen. This examination may be performed by a physician selected by the family or by the Board of Education Medical Inspector at no cost to the family. However it is the parent's responsibility to immediately take the student for the medical testing.
- While the student is waiting for the examination (examination must be completed within 2 hours), whether it is to be performed by a physician selected by the family, the Medical Inspector or an emergency room physician, the student must be supervised by a District staff member or parent/guardian. The student is not allowed to smoke, eat or drink anything with the exception of water until the examination is complete.
- If a physician is selected by the family, the family will bear the cost of the examination. Since time is of the essence in these types of examinations, the parent/guardian must pick up their child and arrange for an examination within two hours of being notified by the school that their child is suspected of being under the influence. The parent/guardian must accompany their child to the examination, submit the appropriate District form to the doctor, and arrange for any necessary authorizations to be executed so that the District may receive the results of the examination.
- If the parent/guardian is unreachable or is unable to accompany the student to the examination within the two hour period, the principal/designee will act in loco parentis and transport the student to the Board of Education Medical Inspector for the medical examination including the drug/alcohol screen. The parent/guardian may also consent to use of the Board of Education Medical Inspector at no charge and accompany their child to the examination. Once again, the appropriate District form will be submitted to the physician.
- If the physician chosen by the family or the Board of Education Medical Inspector is not available to conduct an examination within a two hour period, the law permits the principal/designee to accompany the student to the emergency room for the examination including a drug/alcohol screen. The parent/guardian may accompany the student, if

¹ The procedures detailed in this section refer to suspected use of alcohol or drugs. Similar procedures will be used for the suspected use of anabolic steroids. Those procedures may be found in Board Regulation 5131.6

available, and the appropriate District form will be submitted to the emergency room physician. The District will bear the cost of this emergency room examination.

- If the parent/guardian refuses to allow the student to be examined and to undergo a drug/alcohol screen, all treatment/disciplinary procedures outlined in District policy, regulation and the Student Code of Conduct will be implemented as if the student tested positive for drugs or alcohol. Additionally, violations of the Compulsory Education Act may result and child neglect laws may apply.
- Within 24 hours, and often times much sooner, the examining physician will return a written report of the examination on the District form to the parent/guardian. This form basically clears the student to return to school as the medical examination verifies that alcohol or other drugs do not interfere with the student's physical and mental ability to perform in school. This "OK to Return" to school may be provisional upon the results of the drug/alcohol screen.
- If the parent/guardian does not receive the written report within 24 hours the student may return to school pending the results of the report and the drug/alcohol screen.

TREATMENT AND DISCIPLINE OF STUDENTS

The District has developed the following procedures for the treatment and discipline of students who use, possess, or distribute drugs, alcohol, tobacco, and steroids in violation of law or District policy and regulation in this area. These include referral to an appropriate drug/alcohol abuse program as recommended by the Department of Health where applicable.

Treatment - Students Who Test Positive for Alcohol, Drugs or Steroids

- If there is a positive finding for alcohol or other drugs, the student and parent will be required to meet with the Student Assistance Coordinator or other appropriately trained teaching staff member upon the student's return to school. The purpose of this meeting is to determine the extent of involvement and possible need for treatment. The SAC or other staff member may conduct a reasonable investigation including interviews with the student's teachers as well as his/her parents. The SAC or other staff member may consult with experts in the field of substance abuse as may be necessary and appropriate. The student will continue to meet with the SAC or other staff member for a minimum of five sessions and if deemed clinically appropriate accept a referral for additional outpatient substance abuse counseling. Additionally the student/parent/guardian may be asked to consent to random drug testing of the student.
- If it is determined that the student's involvement with one of these substances represents a danger to the student's health and well-being, the SAC or other staff member shall refer the pupil to an appropriate treatment program, which has been approved by the Department of Health.
- These treatment options also apply to a student who is found in possession or who distributes drugs, alcohol, or steroids. Treatment options for those students who are found to use, possess or distribute tobacco products are cited below.

Discipline - Students Who Test Positive for Alcohol, Drugs or Steroids

- 1st offense: Two days OSS (out of school suspension) and 3 days ISS (in school suspension);
Hearing with student, parent, SAC and grade level administrator to review the treatment plan and expectations of the student and parent or guardian.

- 2nd offense: and Five to Ten days OSS; Possible hearing before the Board of Education subsequent offenses: to consider expulsion.
Discipline for students who are found to use, possess or distribute tobacco products are cited below.

READMISSION OF STUDENTS CONVICTED OF OFFENSE

The District has established the following procedures to govern the readmission to school and treatment of pupils who have been convicted of drug, alcohol, tobacco and/or steroid offenses.

- Any student who has been convicted of a drug, alcohol or steroid offense shall be enrolled in a substance abuse treatment program and monitored by the SAC.
- Additionally the SAC and administration shall maintain ongoing communication with the probation/parole officers and all other agencies involved with that student.
- The student/parent/guardian may be asked to consent to random drug testing of the student.

The student shall successfully complete any mandated treatment program.

SCHOOL DRUG SCREEN TESTING PROCEDURE

1. Franklin Township School District will continue to identify students for drug screening per policy and handbook guidelines.
2. Students will be referred to Doctor's Express/AFC Urgent Care to complete the drug screening.
3. A school designee must notify Doctor's Express/AFC Urgent Care that a student will be coming down for a urine drug screen.
4. Franklin Township School District Personnel will advise student and parents/guardian that they must be at the Doctor's Express/AFC facility by 6 pm with their school paperwork.

Doctor's Express/AFC Urgent Care
601 W. Union Ave (located in the Shop Rite Shopping Center next to Quest Labs)
Bound Brook, NJ

5. Doctor's Express/AFC Urgent Care will evaluate the student, collect and send out the specimen to their reference lab.
6. Doctor's Express/AFC will complete the school-supplied paperwork and provide the paperwork back to the student. The student and parent/guardian will also need to sign a lab-testing waiver.
7. Doctor's Express/AFC will send the lab report to the school.

TOBACCO USE

PROHIBITION

The Franklin Township Public School District recognizes that tobacco use is a public health issue and that tobacco is a highly addictive gateway drug. As expressed in Board policy, the use of tobacco products by students, faculty, staff, school visitors or volunteers, on school grounds, in school buildings and facilities, on school property or at school-related or school-sponsored events is prohibited. Additionally, the possession of tobacco products by a student on school grounds, in school buildings and facilities, on school property or at school-related or school-sponsored events is prohibited.

DEFINITIONS

For the purposes of this Student Code of Conduct,

Tobacco Product is defined as cigarettes, cigars, blunts, bidis, pipes, chewing tobacco and all other forms of smokeless tobacco, rolling papers and any other items containing or reasonably resembling tobacco or tobacco products (excluding quit products).

Tobacco use includes smoking, chewing, dipping, or any other use of tobacco products including e-cigarettes.

Since new products in this area continue to be introduced, the above lists are not inclusive; other prohibited items in this area may be added at the principal's discretion.

PREVENTION

The Franklin Township Public School District is committed to the prevention of tobacco use amongst its students. Prevention education is infused into the health curriculum. Additionally, assemblies, prevention programs and activities are conducted throughout the school year at the different schools in the District at age appropriate levels. Further information on these programs is available through the Student Assistance Counselors.

TREATMENT

Intervention is the first response in addressing violations of the District's prohibition of tobacco use. Students who violate the District's Tobacco-Use Policy will be referred to the Student Assistance Counselor, guidance counselor, school nurse, or other health or counseling services for health information, counseling and possible referral to a cessation program.

Parents/guardians will be notified of all violations and actions taken by the school.

DISCIPLINE

While intervention is the preferred response to the possession or use of tobacco products, the Discipline Matrix on page 58 allows for disciplinary action including suspension and referral to the central office. As with all violations of this Student Code of Student Conduct, the building principal will have discretion as to the implementation of the Discipline Matrix. He/she may consider the repetitive nature of the offense and/or whether the offense endangered the health or well-being of another student or staff member.

CRISIS INTERVENTION

The Franklin Township Board of Education recognizes that self-destructive behavior is a problem among children and adolescents in our society. The Board also recognizes that such behavior can be manifested in many ways and that suicidal tendencies may be exhibited by students of various socio-economic backgrounds and/or levels of academic functioning and achievement.

Four out of five teens that/who attempt suicide give clear warning signs. **Warning Signs of suicidal ideation include, but are not limited, to the following:**

- Talking about suicide
- Making statements about feeling hopeless, helpless, or worthless
- A deepening depression
- Preoccupation with death
- Taking unnecessary risks or exhibiting self-destructive behavior
- Out of character behavior
- A loss of interest in the things one cares about
- Visiting or calling people one cares about
- Making arrangements; setting one's affairs in order
- Giving prized possessions away

Along with these warning signs, there are certain Risk Factors that can elevate the possibility of suicidal ideation.

- Perfectionist personalities Youth with low self-esteem
- Depressed youth Students in serious trouble
- Abused, Molested or Neglected Youth Parental history of violence, substance abuse, or divorce

The National Suicide Prevention Lifeline provides free and confidential emotional support to people in suicidal crisis or emotional distress 24 hours a day, 7 days a week, across the United States. The Lifeline is comprised of a national network of over 160 local crisis centers, combining custom local care and resources with national standards and best practices. REFERRAL TO PSYCHIATRIC EMERGENCY SCREENING SERVICES (PESS)

The Somerset County Psychiatric Emergency Screening Service will transition to a new provider on March 1, 2017.

Bridgeway Rehabilitation Services was awarded this contract by the New Jersey Division of Mental Health and Addiction Services on December 30, 2016 in recognition of the agency's history of providing acute care services to people diagnosed with serious and persistent mental illness since 1996 with locations in 11 of New Jersey's 21 counties, including Somerset.

Bridgeway Rehabilitation will move PESS out of the Robert Wood Johnson University Hospital and into the community on March 1, 2017.

The new program will be located temporarily at 515 Church Street, Suite 2, Bound Brook, New Jersey.

A larger permanent site in Somerville is being renovated and will offer a safe, trauma free environment for residents to meet with therapists.

Providers, family members, nursing home staff, school guidance counselors, and law enforcement officers are strongly urged to contact the program by phone and a certified screener will be dispatched to the community to meet with any resident in crisis. An evaluation will be completed and if appropriate referrals to a community mental health and/or addiction service will be made.

Children and adolescents referred to PESS by a school system or by a parent will be evaluated at the school or in their home. This will decrease the trauma experienced by children and their families who have been sent to a hospital emergency department in the past.

Residents who are experiencing acute psychiatric distress and meet the criteria for commitment will be evaluated by Bridgeway PESS staff at Robert Wood Johnson-Barnabas and will be referred to inpatient care as necessary.

The Somerset County Department of Human Services will continue to provide support and assistance to Bridgeway Rehabilitation during this especially crucial transition period.

The telephone number for PESS remains 908-526-4100 and many of the current PESS staff have been hired by Bridgeway and will be available to serve the community.

Finally, it has been an honor for the Somerset County Department of Human Services to provide Psychiatric Emergency Screening Services to the residents of Somerset County for 30 years and we look forward to this new chapter in the acute care system.

If you have any concerns now or in the future please feel free to contact me at any time.

Very Truly Yours,

Pamela A. Mastro, MSW
SC Mental Health Administrator

FIREARMS AND OTHER WEAPONS

FIREARMS – ZERO TOLERANCE FOR GUNS ACT (18A:37-7 AND 8)

Any student who is convicted or adjudicated delinquent for possession of a firearm or a crime while armed with a firearm or found knowingly in possession of a firearm on any school property, on a school bus, or at a school sponsored function shall be immediately removed from the school's regular education program pending a hearing before the BOE to remove the student from the regular education program for a period of not less than one calendar year subject to modification on a case-by-case basis by the Superintendent of Schools.

OTHER WEAPONS

Definitions

1. "Other Weapons" means any object, device or instrument designed as a weapon or through its use is capable of threatening or producing bodily harm or which may be used to inflict self-injury including, but not limited to, air guns; pellet guns; BB guns; all knives; blades; clubs; metal knuckles; nunchucks; throwing stars; explosives; fireworks; incendiary devices; mace and other propellants; stun guns; ammunition; chains; arrows; incapacitation and audio alert devices; and objects that have been modified to serve as a weapon.
2. Devices or instruments having the appearance of a weapon including, but not limited to, weapons listed above which are broken or non-functional, look-alike guns; toy guns; and any object that is a facsimile of a real weapon.
3. Lasers or laser pointers, belts, combs, pencils, files, scissors, etc. shall be considered weapons if they are used to inflict bodily harm and/or intimidate. Such use will be treated as the possession and use of a weapon.

When the building principal determines that a student is in possession of an object classified as "other weapon", the student shall be disciplined in accordance with BOE policy and this Student Code of Conduct.

HANDLE WITH CARE PROCESS AND PROTOCOLS

Handle With Care is a behavior management system to guide staff when dealing with behaviorally challenged student situations. The purpose is to preserve the dignity of student and staff; maintain the safety of student and staff; and to foster a positive learning environment.

Franklin Township School District provides annual training and follow-up support for staff on the techniques of Handle with Care. Although not all staff has been trained in the Handle With Care restraint techniques, all staff will adhere to the district policy and procedures outlined in this process. Regardless of whether staff have been trained in the Handle With Care Techniques, any staff person may utilize reasonable restraint to prevent students from causing harm to themselves or others. This is in accordance with NJ State Law and BOE policy.

Handle With Care relies heavily on de-escalation strategies to assist staff in managing student disruptive behaviors. Physical restraint is only used in situations where a student's behavior is imminently a threat to their safety or the safety of others. When a student demonstrates behaviors that require physical restraint the administration and staff are required to do the following:

- Once the situation is ended have on site school nurse assess the student.
- Contact parents in writing and if possible by phone regarding the details of the incident.
- Administration and involved staff will discuss details of the situation, no later than the end of the following school day.

DISCIPLINE FOR ALL ACTS OF STUDENT MISBEHAVIOR

DISCIPLINE PROCESS

The discipline process is triggered when a student engages in misconduct that is observed by a school employee or when an investigation from a complaint or anonymous tip is completed. Faculty use of behavior management strategies in their classroom is considered the first line of discipline for minor misconduct. As such, teachers may utilize the following strategies prior to referring a student for administrative disciplinary action (this is not a comprehensive list):

- Conferencing with the student;
- Contacting the student's parent/legal guardian;
- Assigning a teacher detention;
- Seeking assistance from colleagues to create a plan to support the student with meeting positive behavioral expectations;
- Documenting student misconduct using the Multiple-Offense form.
- District Administrators and staff have the right to question students regarding any situation that either jeopardizes student safety or property.

MISCONDUCT WARRANTING ADMINISTRATIVE ACTION

The student may be referred to the building administrator when a) the nature of the misconduct warrants immediate attention, and/or b) problem behavior continues despite the use of teacher-mediated behavior management and disciplinary strategies.

Administrators who receive students for disciplinary action consider the type, scope, and severity of the infraction in order to assign an appropriate consequence within the framework provided in the Code of Conduct.

Misconduct that warrants the lowest consequence level is characterized as a first offense or an isolated incident. Misconduct that warrants a higher consequence level is characterized by multiple offenses documented by the referring teacher and/or multiple referrals to the building administrator.

Some incidents of misconduct may meet criteria for Law Related Violations and Consequences and will be managed according to the Discipline Matrix beginning on page 60.

Note: Any person, including but not limited to students, school employees, parents, other adults or juveniles, who enters on any school property, any school building, or school bus, may be video and/or audio taped as part of the measures taken by the District to provide a safe, secure, and orderly environment. Information recorded on school surveillance equipment may be used as evidence in disciplinary and/or legal proceedings.

LEVELS OF DISCIPLINARY CONSEQUENCES

The Student Code of Conduct will be enforced on all school grounds, traveling to and from school, at all school activities, functions and events wherever they are located. Students who commit behavioral violations are subject to disciplinary actions. These may be undertaken by teachers, counselors, administrators or other school personnel. The action is determined by federal, state and city laws and by administrative and School Board policies.

Although corporal punishment is prohibited, physical restraint may be used by school personnel in some situations. For example, reasonable physical restraint may be used when necessary to stop a disturbance, prevent physical injury to any person, protect property, or to remove a disruptive student from school premises or school-sponsored activities.

Level 1 – School personnel will enforce appropriate disciplinary consequences for violations of the Student Code of Conduct that involve the students, parents/guardians, school personnel, and legal law enforcement as is appropriate.

Level 2 – Consequences will include conferencing and the assignment of (detentions, in-school suspensions, I&RS referral, counseling, Child Study Team) or other disciplinary remedies, but not out of school suspension.

Level 3 – Out of school suspension shall be given. At this level the student shall be removed from the school for a short time in accordance with School Board Policies and State Law per the following steps:

- a. a suspension of one to three (1-3) days requires a parent conference to return to school;
- b. a suspension of three to five (3-5) days requires a referral to SAC (Student Assistant Coordinator) and parent conference with principal;
- c. a suspension of five to ten (5-9) days requires referral to I&RS team and parent conference with principal

Note – For Levels 1, 2 and 3 excessive cumulative suspensions at any level in a single year may result in:

- Referral to guidance counselor, SAC, I & RS (Intervention & Referral Service) or Child Study Team (CST);
- Change in academic placement;
- Additional behavioral intervention;
- Movement to Level 4.

Level 4 – Mandatory suspension shall be given and a mandatory assessment shall be conducted. At this level there will be a mandatory ten (10) day suspension of the student accompanied by an assessment for future placement. The student's records will be reviewed by the building administration to determine if the discipline infraction requires program modification. If the modification includes Out-of-District placement in a non-classified situation approval of the Director of School Management and Student Advocacy is required.

A written summary of the building administration's assessment, along with recommendations and/or actions taken by the Director of School Management and Student Advocacy will be presented to the Superintendent of Schools before the student is readmitted to school or is placed in any educational program. The Superintendent may refer to the Board of Education for consideration of Level 5 adjudication.

Level 5 – This level may result in expulsion. Level 5 provides for long-term suspension or permanent separation of the student from the school system:

- Ten (10) day suspension pending Board hearing;
- Home instruction pending Board hearing;
- Board hearing pending expulsion.

Any student reaching Level 3, Step c, discipline or higher, during any single school year, must receive a re-entry assessment with school administration prior to the start of the next school year for the purpose of determining appropriate support services and/or continued disciplinary action.

At all Levels repeated violations may increase the severity of the consequences. Administrators charged with the responsibility of creating and maintaining a safe and drug free environment may find it necessary to use options and procedures not covered in these action levels.

Note: The District recognizes that there may be incidents of student misbehavior not specifically identified in the Code of Conduct and authorized the administration to determine appropriate action for any misbehavior not covered in this document.

STUDENTS IN SPECIAL EDUCATION PROGRAMS

In accordance with N.J.A.C. 6A:14-2.8

Before making any formal recommendation for suspension of a student who has been classified, the building principal must determine whether the student has been suspended for ten (10) consecutive or cumulative school days during the current school year. The principal, in consultation with the CST case manager, shall determine whether a series of short-term suspensions constitutes a change of placement sufficient to meet the “10 day” period before any formal recommendation of suspension is made.

School district personnel may, on a case-by-case basis, consider any unique circumstances when determining whether or not to impose a disciplinary sanction or order a change of placement for a student with a disability who violates the student code of conduct.

STUDENTS IN PRE-KINDERGARTEN THROUGH GRADE 2

In order for young children to fully and consistently participate in early learning experiences, we need to ensure that they are in school and able to positively engage in educational opportunities. Removing young children from school through out of school suspensions reduces their participation in academic, behavioral and social learning experiences critical to their positive development and may lead to chronic absenteeism.

P.L. 2016, Chapter 45, signed into law by Governor Christie, places limits on out of school suspension as follows:

1. Students in grades kindergarten through grade two:
 - a. Shall not be expelled from school, except as provided pursuant to the “Zero Tolerance for Guns Act”
 - b. Shall not receive an out-of-school suspension, except when the suspension is based on conduct that is of a violent or sexual nature and endangers other, and
2. Students in preschool:
 - a. Shall not be suspended and shall not be expelled, except as provided pursuant to the “Zero Tolerance for Guns Act”.

To proactively address the needs of students in preschool through grade two, the law requires school to implement an early detection and prevention program to identify students who are experiencing behavioral and disciplinary problems and provide behavioral supports. The behavioral supports may include, but are not limited to: remediation of problem behaviors, positive reinforcement, supportive interventions and referral services. Positive approaches such as these address the underlying cause or purpose of the behavior, reinforce positive behavior, and have been associated with increases in academic engagement, academic achievement, and reductions in suspensions and school dropouts.

HOW AND WHEN TO REPORT CHILD ABUSE/NEGLECT

Standardized Training Materials – Reporting Child Abuse and Neglect: What School Personnel Need to Do

In New Jersey, any person having reasonable cause to believe that a child has been subjected to abuse or acts of abuse should immediately report this information to the State Central Registry (SCR). If the child is in immediate danger, call 911 as well as **1-877 NJ ABUSE (1-877-652-2873)**. A concerned caller does not need proof to report an allegation of child abuse and can make the report anonymously.

What information will I be asked to provide to the hotline screener?

SCR screeners are trained caseworkers who know how to respond to reports of child abuse/neglect. Whenever possible, a caller should provide all of the following information:

- **Who:** The child and parent. Caregiver's name, age and address and the name of the alleged perpetrator and that person's relationship to the child.
- **What:** Type and frequency of alleged abuse/neglect, current or previous injuries to the child and what caused you to become concerned.
- **When:** When the alleged abuse/neglect occurred and when you learned of it
- **Where:** Where the incident occurred, where the child is now and whether the alleged perpetrator has access to the child.
- **How:** How urgent the need is for intervention and whether there is a likelihood of imminent danger for the child.

Do callers have immunity from civil or criminal liability?

Any person who, in good faith, makes a report of child abuse or neglect or testifies in a child abuse hearing resulting from such a report is immune from any criminal or civil liability as a result of such action. Calls can be placed to the hotline anonymously.

Is it against the laws of New Jersey to fail to report suspected abuse/neglect?

Any person who knowingly fails to report suspected abuse or neglect according to the law or to comply with the provisions of the law is a disorderly person.

What happens after I make the call?

When a report indicates that a child may be at risk, an investigator from the Division of Child Protection and Permanency (formerly Youth and Family Services) will promptly investigate the allegations of child abuse and neglect within 24 hours of receipt of the report.
