Code of Conduct

General Information and Quick Links

Mission Statement: Franklin Township Public Schools embraces its diversity, fosters excellent educational innovation and empowers all students to achieve their highest potential.

The goal of the District Student Code of Conduct is to promote a learning environment where students are expected to:

Be Safe • Be Respectful • Be Responsible and Prepared

At Franklin Township Public Schools, we are dedicated to giving our students and staff places to learn and work that are safe, orderly and culturally responsive. We also want to provide our students with the support they need to stay in school and continue to learn and mature.

All students have the right to learn, and no student has the right to disrupt the learning activities of others. Each year, the Franklin Township Board of Education adopts a districtwide Code of Conduct to provide guidelines for expected student behavior.

School Safety

A safe school is one where teaching and learning are not distracted; disruptions are minimized; violence, drugs, bullying and fear are not present; students are not discriminated against; expectations for behavior are clearly communicated; and consequences for infractions are consistently and fairly applied.

In addressing the concerns related to school safety the District's focus includes but is not limited to the following:

- Bullying and Cyberbullying.
- Vaping and Drug Use
- Cybersecurity.
- Emergency Planning.
- Infectious Diseases and Public Health.
- Mental Health.
- School Climate.
- Targeted Violence.

Safe schools promote the protection of all students from violence, exposure to weapons and threats, theft, bullying and harassment, the sale or use of illegal substances on and off school grounds, and other emergencies. School safety is linked to improved student and school outcomes.

Students who intentionally disrupt the safe culture and climate of our school by violating the expectations for student behaviors described within the Student Code Of Conduct are subject to disciplinary action as described in the Student Code Of Conduct. Additionally, students will lose student privileges that include:

- Participation in Club activities
- Membership in school organizations (Class Officer, Honor Society, ect.)
- Participation in athletics, band, dance, plays/musicals
- School activities such as Field Day, Halloween Parades, and other special school activity events.

SCHOOL BEHAVIORAL THREAT ASSESSMENT & MANAGEMENT:

On August 1, 2022, Governor Phil Murphy signed into legislation, N.J.S.A. 18A:17-43.4, requiring the establishment of threat assessment teams in public, charter, and renaissance school projects.

The goal of the threat assessment process is to prevent acts of violence before they start. The purpose of a threat assessment team is to provide school teachers, administrators, and other staff with assistance in:

- identifying students with behaviors of concern,
- assessing those students' risk for engaging in violence or other harmful activities,
- and delivering intervention strategies to manage the risk of harm for students who pose a potential safety risk.

Through the threat assessment process, we hope to identify students who may be on a “pathway to violence” and provide them with the resources and support they need to adapt to a safe, healthy, and productive lifestyle. Reducing and preventing acts of violence in our schools is part of the formula that ensures that all students have a safe and secure environment in which to learn and grow.

The threat assessment teams' purpose is also to prevent targeted violence in the school and to ensure a safe and secure school environment that enhances the learning experience for all members of the school community.

To be clear, the need to conduct a behavioral threat assessment is based on a set of observable behaviors exhibited by an individual that present safety related concerns. These behaviors include, but are not limited to:

- Student journal entries focusing on violence, destruction, or death
- A pattern of physical aggressive behavior or bullying
- Threats to or the act of bringing a weapon to school
- Social media posts with threat messaging
- Exhibiting or threatening self harm
- Deliberate acts of vandalism or the destruction of property
- Desire to hurt/kill things
- Dramatic changes in behavior
- Drug use
- Uncontrollable anger or rage
- Similar alarming or disturbing behavior

The determination to conduct a behavior threat assessment for a student is not punitive. By identifying students who exhibit concerning behavior such as the behaviors in the examples above, we may provide needed resources and support services to the student/family.

Should you recognize a student exhibiting any of the concerning behaviors listed above or any other alarming behaviors, please contact the school _____ or you can make a referral to the school threat assessment team anonymously online by _____.

TRANSPORTATION RULES

Pupils transported on school buses are under the authority of, and directly responsible to, the driver of the bus. The purpose of bus discipline procedures is to provide measures for corrective action when a student's behavior is such that it constitutes a safety risk. This would include any deliberate misbehavior that might interfere with the safe operation of the bus. For the purpose of this regulation, student transportation shall be defined as including the loading, en route traveling, and unloading of students to or from school or a school-sponsored activity. In order to assure orderly and safe transportation of all passengers many of our buses are equipped with on board audio-video monitoring systems. All passengers are required to observe the following rules at all times.

1. Complying with the bus driver's instructions at all times is essential and expected.
2. Remaining seated when the bus is in motion is required. Fasten your seatbelt when seated and leave it fastened until you arrive at your final destination.
3. Being disrespectful or abusive to the bus driver or any other staff or student in conduct or language is not permitted.
4. Showing your Student I.D., grades six (6) through twelve (12), to the bus driver upon request is required.
5. Using profanity and other foul language or gestures towards the bus driver, staff, or other students is not permitted.
6. Placing head, arms, or legs, or objects outside the window of the bus is strictly prohibited.
7. Eating or drinking on the bus is not allowed. Keep the bus clean and free of paper or other litter.
8. Transporting animals on the school bus is not permitted.
9. Inflating or having inflated balloons on the school bus is not permitted.
10. Boarding or attempting to board a bus other than the student's arranged bus or attempting to leave the bus at other than the student's bus stop without permission is not allowed.
11. Seating arrangements are at the discretion of the bus driver unless otherwise assigned by the school administration. When designated seating is used, students must sit in their assigned seats. A mandatory seating chart will be submitted to the building principal and kept on file.
12. Showing issued bus passes when called upon to do so by the bus driver or other school authority is required. Failure to produce the bus pass upon request of the driver shall be reported to the appropriate school administrator. A student shall not allow the use of his or her bus pass by another student.
13. Behaving orderly on the bus and at the bus stop is required. In addition, any reported incidents occurring at, to, or from the bus stop will be investigated and could result in disciplinary action as well as in police action.

17. Hitting, fighting, harassing, scuffling, pushing, kicking, making loud and unnecessary noise, acting boisterous or not in control of your body, or participating in gang related activity, is distracting to the driver, and is not permitted.
18. Refusing to give your name to the bus driver or giving a false name indicates misrepresentation and insubordination to the authority of the driver and shall be sufficient cause for immediate denial of transportation by the school administrator.
19. Throwing articles into, onto, or out of the bus is not permitted.
20. Parents are not permitted to board the bus.

DISCIPLINARY ACTIONS FOR INAPPROPRIATE BUS BEHAVIOR

All students are expected to follow the standards for behavior outlined in the Student Code of Conduct regardless of whether they are in the school building, on school grounds, on the school bus or at the bus stop, or attending any school sponsored event. While on the school bus, students are expected to follow the directives of the bus driver the same as they would their teacher in the classroom.

Inappropriate student behavior on the school bus will be addressed in accordance with the Student Code of Conduct and administered by the child's building principal or vice principal similarly to other student misbehaviors that occur in the school building or classroom. However, to insure safe student transportation, the following conduct is specifically prohibited on the school bus and violations will result in revocation of school transportation privileges:

- Fighting
- Smoking
- Exiting the bus from the emergency exits without being directed to do so by the bus driver
- Throwing objects out of the bus window
- Purposely damaging the bus
- Any other behaviors that occur on the bus that may jeopardize the health, safety, or well-being of the other individuals that are either in or around the bus.

The following corrective consequences will be provided for minor to moderate bus infractions:

- **Administrative Conference with student and Parent/Guardian**
- **Lunch/Recess detention or after school detention (secondary school students)**
- **Saturday Bus Academy**

The sequence of disciplinary action for more serious infraction are outlined as follows:

First Offense - An administrative conference shall be held with the student. The student shall be given a minimum of three (3) and a maximum of five (5) days out of school suspension. The parent/guardian shall be advised of the action taken by the administration via telephone and by written notice. A personal re-entry conference shall be held with the parent/guardian prior to the student's return to school.

Second Offense - An administrative conference shall be held with the student. The student shall be given a minimum of five (5) and a maximum of seven (7) days out of school suspension. The parent/guardian shall be advised of the action taken by the administration via telephone and by written notice. A personal re-entry conference shall be held with the parent/guardian prior to the student's return to school.

Third Offense - An administrative conference shall be held with the student. The student shall be given a minimum of five (5) and a maximum of ten (10) days out of school suspension and a ten (10) day suspension of bus privileges. The parent/guardian shall be advised of the action taken by the administration via telephone and by written notice. A personal re-entry conference shall be held with the parent/guardian prior to the student's return to school.

Fourth and All Subsequent Offenses – An administrative consultation shall be held with the student, the parent/guardian, and when possible, the District Transportation Supervisor. The student shall be given a minimum of five (5) days of out of school suspension and a minimum of thirty (30) days of bus privilege suspension. Students may receive permanent denial of bus privileges at the discretion of the building principal.

Notes:

1. *When a student's bus privileges have been suspended for misconduct, it is the parent/guardian's responsibility to provide the child with transportation to and from school.*
2. *Any person, including but not limited to students, school employees, parents, other adults or juveniles, who enter on any school property, any school building, or any school bus, may be video and audio taped as part of the measures taken by the District to provide a safe, secure, and orderly environment. Information recorded on school surveillance equipment may be used as evidence in disciplinary and/or legal proceedings.*

8601 - STUDENT SUPERVISION AFTER SCHOOL DISMISSAL

Section: Operations

Date Created: November 2019

Date Edited: November 2019

Introduction/Background

Per Policy 8600 Transportation, the Board of Education will provide (free) transportation to and from school to all public school students, within the district, who live beyond Two (2.0) miles from the school they attend for students in Grades Pre-Kindergarten to Eight. Transportation eligibility shall be determined based on attendance area boundary, unless transportation is required in a child's IEP or district program.

Additionally, and where practicable, Policy 8600 also provides that the Board of Education may authorize the transportation of other students to and from public school. As such, the Board of Education currently offers courtesy bussing to all students in grades Pre-K – Five within their attendance area boundary or location determined by the child's IEP or district program.

In some cases, students are placed outside of their attendance area boundary; utilize the CARE Program or otherwise become ineligible for courtesy transportation. In those cases parents/guardians are responsible for the transportation of their children. In other cases, parents/guardians elect to waive district provided transportation and are responsible for the transportation of their children.

In the New Jersey Supreme Court case, *Jerkins v. Anderson, et al*, the Court indicated dangers that exist for younger students at dismissal as children are susceptible to numerous risks, including negligent conduct, when leaving school property.

Because of these risks, the Board of Education adopts and requires the implementation of Policy 8601 for the supervision of younger students after dismissal. The supervision provisions of Policy 8601 are applicable to parents or legal guardians of students attending district-operated schools or programs in grades Pre-K to Five who are not eligible for district-provided transportation after dismissal or are eligible and elect not to use district-provided transportation after dismissal.

A student attending a district-operated school or program in grades Pre-K to Five, where the student is not eligible for district-provided transportation or is eligible and child's parent(s) or legal guardian(s) elect not to use district-provided transportation after dismissal will only be released to the parent(s) or legal guardian(s) or escort(s) designated by the parent(s) or legal guardian(s). The parent(s) or legal guardian(s) designated escort(s) must be at least 12 years old.

Exceptions to this Policy will be considered on a case by case basis and must be submitted in writing to the Principal or program administrator who will seek the approval of the Superintendent and, where applicable, the Board of Education.

Authorization/Request for Release

The parent(s) or legal guardian(s) requesting their child(ren) be released to a parent(s) or legal guardian(s) or parent(s) or legal guardian(s)-designated escort after dismissal must provide a letter to the Principal listing the names, and relationship to the child, of those individuals to whom the child may be released. The letter should state that the escorts designated by the parent(s) or legal guardian(s) are 12 years of age or over. Finally the letter shall state that the parent(s) or legal guardian(s) are aware of this policy and its placement in the Student Code of Conduct; the school calendar, available on the district website and knowledge of the school dismissal plan.

This letter/request shall be effective for the duration of the school year and must be resubmitted every year. A parent(s) or legal guardian(s) may change their request by submitting a written letter to the Principal or program administrator changing the escorts authorized to whom the child may be released.

The Principal or program administrator upon receiving the letter/request shall notify the appropriate school staff member(s) who has supervision of the student at dismissal time at the end of the school day of the parent's or legal guardian's request. The supervising staff member that receives such notice shall retain supervision of the student when other students are dismissed from school at the end of the school day.

Dismissal Plan

Each Principal or program administrator will develop and implement a written Student Supervision After School Dismissal Plan for their school building or program location. This Plan shall include the school building's or program's supervision procedures for students at the end of the school day to the designated area in the school building or program and the location of the designated area in the school building or program. The Plan shall be based on the school's or program's ability to provide supervision, the accessibility for the parent(s) or legal guardian(s) or designated escort to pick-up the child without disrupting dismissal of the remaining school population, and other considerations unique to the school building or program location. The school's or program's Student Supervision After School Dismissal Plan shall be provided to all parent(s) or legal guardian(s) that have submitted a request.

The student(s) shall be supervised by school staff in the designated area of the building and will only be released when the parent(s) or legal guardian(s) or designated escort arrives to pick up the student.

In order to ensure the safety of other students being dismissed from school in accordance with typical school dismissal protocol, to limit interaction of parent(s) or legal guardian(s) or designated escorts with other students within the building, and to avoid traffic and vehicular safety problems outside the school building, the Principal or program administrator may prohibit the parent(s) or legal guardian(s) or designated escort from entering the school building until a time period after school has dismissed or until school buses and other vehicular traffic have cleared the school site. This determination shall be made by each Principal or program administrator after considering the unique circumstances at the school building and the building's typical dismissal protocol.

In the event the parent(s) or legal guardian(s) or designated escort does not arrive to pick up their child(ren) after the dismissal time of school, the Principal or designee will attempt to contact the parent(s) or legal guardian(s) using the district's emergency call procedures.

In the event of an emergency such that, when an unforeseen event prevents a parent or legal guardian or designated escort from arriving for the child(ren) at dismissal within the time period designated by the Principal

or program administrator, the student will be relocated to the Main Office in the school building and will remain in the Main Office supervised by the Main Office staff until the parent(s) or legal guardian(s) or designated escort arrives and signs the student out of school.

Where available, the student may be relocated to the CARE Program where the student will be supervised by after-school program staff until the parent(s) or legal guardian(s) or designated escort arrives and signs the student out of the CARE Program.

In this circumstance, the parent(s) or legal guardian(s) may be subject to after-school program fees if it is determined by the Principal or program administrator that the frequency of emergencies causing the parent(s) or legal guardian(s) or designated escort to be delayed in picking-up the student is excessive.

The school will provide parent(s) or legal guardian(s) information regarding any supervised after-school services, if any, that may be available to students at the school's facilities after formal school dismissal.

If repeated attempts to locate the parent(s), legal guardian(s) or authorized escort(s) fail, the Principal shall, in his/her discretion, contact law enforcement and/or Division of Child Protection and Permanency to assist.

Publication of Policy

This Policy shall be published in the Student Code of Conduct. In addition, the school district shall make available to parent(s) or legal guardian(s) in the beginning of the school year, the school's calendar to include the starting and dismissal times for full session, half-session, and early dismissal days due to weather or other emergencies. In addition, any changes to the school's calendar made during the school year shall be provided to parent(s) or legal guardian(s).

ATTENDANCE REGULATIONS

School achievement begins with regular attendance. Parents/guardians must ensure that all school-aged children in their care are in school on time daily. Additionally, school personnel must communicate any attendance problems or concerns to parents/guardians in a timely manner.

The most effective strategy to prevent unexcused and excessive absence is to be proactive, with the school, family, and the community working together. To this end, school personnel report to the building principal or his/her designee their concerns about student behaviors that may be precursors to attendance problems. The building administration along with other appropriate school staff will work to address continuing student attendance issues by meeting with the student and parent/guardian and through other appropriate interventions and referrals.

The New Jersey Administrative Code 6A:16-7.8 Attendance and BOE Policy and Regulation # 5220 apply to attendance matters:

1. Each District Board of Education shall develop, adopt and implement policies and procedures regarding the attendance of students, pursuant to N.J.S.A. 18A:38-25 through 31 and N.J.A.C.6A:32-8 and 13.1, at the public schools of the District or day schools in which students are provided with equivalent instruction, according to the requirements of N.J.S.A. 18A:38-25.
2. Within 10 days of the start of the school year, a School District shall determine whether any re-entering student who has not attended school that year has an excused absence or has transferred, withdrawn or dropped out of the School District. N.J.A.C. 6A:32-8.2.
3. For up to four (4) cumulative unexcused absences, the District shall:
 - a. make a reasonable attempt to notify the student's parents of each unexcused absence prior to the start of the following school day;
 - b. conduct an investigation of the cause of each unexcused absence, including contact with the student's parents;
 - c. develop an action plan in consultation with the student's parents designed to address patterns of unexcused absences, if any, and to have the child return to school and maintain regular attendance.
4. For between five (5) and nine (9) cumulative unexcused absences, the District shall:
 - a. make a reasonable attempt to notify the student's parents of each unexcused absence prior to the start of the following school day;
 - b. conduct a follow-up investigation, including contact with the student's parents, to determine the cause of each unexcused absence;
 - c. revise the action plan, as needed, to identify patterns of unexcused absences and establish outcomes based upon the student's needs and specify the interventions for achieving the outcomes, supporting the student's return to school and regular attendance and
 - d. refer the student to the building level Intervention & Referral Services Team (I&RS Team) or CST case manager for classified students.
5. Any student between the ages of 6 to 16 who accumulates ten (10) cumulative unexcused absences from school or who continues to exhibit a pattern of unexcused absence will be referred by the school administration to the District Attendance Officer. The District Attendance Officer is obligated to make a mandatory referral to the Family Crisis Intervention Unit which serves as the court program required by the New Jersey Office of the Court.
6. A continued pattern of unexcused absence will result in the District filing charges against the student's parent or guardian and/or the student being recommended to the building principal for removal from the District attendance register.
7. Residency requirements – Under N.J.S.A. 18A:38-1(a), a student who is under the age of 18 is “domiciled” in a School District, and thereby entitled to attend school in the District, if his or her parent or legal guardian is “domiciled” in that District. A student who has reached the age of 18 may establish his or her own domicile.
- 8.

ATTENDANCE REGULATIONS

9. Domicile is the place where a person lives in his or her fixed, permanent home. This home must be the place to which he or she intends to return when he or she goes away, and from which he or she has no intention of moving anytime soon. A person can have only one “domicile” at a time, even if he or she has more than one home.

10. All students must have their current address on record. Parents of students who move to a new address must go to Parent Information and submit proof of their new address.
11. It should be noted that all student absences, whether they are classified excused or unexcused, make up the total student absence count. Students who accumulate more than 18 days of total absences from school have not satisfied the State of New Jersey attendance requirement for promotion to the next grade level or graduation from high school. Parents/Guardians of students who have exceeded 18 days of absences from school can arrange a meeting with the building principal to review the child's attendance and other school records to determine whether any special consideration is warranted.

A chronic pattern of unexcused student absence may also result in student retention in grade level or student ineligibility to earn a high school diploma or participate in high school graduation. Principals will notify parents/guardians in writing when their child has accumulated four (4), eight (8), and ten (10) days of unexcused absences. It is hoped that through communicating and working together, we will be able to develop and implement effective strategies that will result in improved student attendance and academic achievement.

The Board of Education believes that the regular attendance of students in school is critical to its educational mission. Regular attendance of students in the classroom allows for continuity in the instructional process, which enables the students to complete the Core Curriculum Content Standards and District curriculum requirements. Therefore, students are expected to be present, on time and prepared for each class, each day that the District schools are open for educational purposes, unless their absence or lateness is deemed "excused" as set forth in this student code of conduct.

Students are expected to make up any work they may have missed when they are absent from school or class.

DEFINITIONS PERTAINING TO ATTENDANCE

- "Attendance" is a student's presence in school and in the classroom to which he or she is assigned at the times scheduled for instruction or other approved school activities.
- "Truancy" exists when a student is absent from school for all or part of the school day and the parents/guardians are unaware of the absence and have not provided the school with written verification to support the absence.
- A school day shall consist of not less than four hours of actual instruction. In order to be recorded as present for the full day, a student must be present for at least four hours during that school day.
- A student shall be considered absent from school if they participate in less than 4 instructional hours during the school day.
- When a student participates in an approved school activity such as a field trip, school related meeting, cooperative education assignment, independent study program or athletic competition, he/she may be considered to be in attendance even though he/she is not physically present in the school facility.
- "Excused absence" is a student's absence from school for a full day or a portion of a day for a reason approved by the Board as an excused absence. Further, in order for a student's absence to be recorded as excused, the student's parent/guardian must submit a written reason for the absence. This written note must be submitted to the school's attendance clerk within five (5) days of the student's return to school.

ATTENDANCE REGULATIONS

EXCUSED/UNEXCUSED ABSENCES

Absences from school, including absence for any portion of the day, shall be considered excused under the following conditions:

- Student illness (physician's note will be required for continuous absences that exceed 3 consecutive days and will also be required for students who have been absent because of contagious or infectious diseases or conditions as designated by the New Jersey State Department of Health);
- Student recovery from an accident (as supported by a physician's note);
- Requirements of a student's individual health care plan;
- A death in the student's immediate family
- Quarantine; (Physician's Note to return to school)
- Observance of the student's religion on a day approved for that purpose by the State Board of Education. This specific information may be found on the New Jersey Board of Education website;
- The student's suspension from school (excluding a bus suspension);
- Requirements of the student's Individualized Education Program (IEP);
- Alternate short or long-term accommodations for students with disabilities;
- The student's required attendance in court (copies of court papers should be submitted);
- Interviews with an admissions officer of an educational institution or other education opportunities such as college visitations (limit of three);
- Necessary and unavoidable medical or dental appointments that cannot be scheduled at a time other than the school day;
- Participation in New Jersey "Take Your Child To Work Day";
- Such other cause, that in the judgment of the building principal, constitutes a good and sufficient cause for absence from school

"Unexcused absence" is a student's absence for all or part of a school day for any reason which does not fall into one of the Board approved categories of excused absences.

Examples of student unexcused absences include, but are not limited to the following:

- Family travel or vacations;
- Performance of household or babysitting duties; and
- Other daytime activities unrelated to the school program.

ABSENCES REQUEST FOR EXTENDED STUDENT ABSENCES BEYOND TEN CONSECUTIVE SCHOOL DAYS

The District recognizes the need for some parents to request that a child be absent from school for an extended period of time. All such requests should be made in writing and addressed to the building principal.

When the request results in the child missing school for ten or more consecutive days of school, the District requires that the parent/guardian sign the student out of school and then re-register the student upon their return to the District.

POSSIBLE CONSEQUENCES FOR A STUDENT WHO REGULARLY MISSES SCHOOL

- Denial of participation in co-curricular activities and extracurricular activities
- Negative impact on student grades
- After school detention
- In-school suspension
- Loss of course credit (high school only)
- Referral to Intervention & Referral Services (I&RS)

ATTENDANCE REGULATIONS

- Referral to the County Family Crisis Intervention Unit
- Family referral to the Division of Child Protection and Permanency (DCP&P)

- Retention in grade level
- Failure to satisfy grade promotion or graduation requirements
- Referral for outside interventions through the local courts
- Referral for alternative school placement or other alternative education programs outside of the public school

It is important to remember that parents/guardians should submit a note or medical documentation explaining each student's absence. Such notes must be submitted within five (5) days of the student's return to school in order to consider the period of absence as excused.

It is also important to note that absences that occurred for reasons not included in the Attendance Policy or absences which are not accompanied with a written explanation within (5) days for an excuse will result in the student absence being recorded as unexcused. Students who accumulate ten (10) unexcused absences or who show a pattern of truancy will be referred to the Family Crisis Intervention Unit. Additional unexcused absences for truancy will result in referral to the Franklin Township Municipal Court.

STUDENTS REPORTING LATE TO SCHOOL OR REQUESTING TO LEAVE SCHOOL EARLY

It is imperative for students to be on time at the beginning of the school day. Student attendance is recorded during this time.

Schools are required to admit students to school regardless of the time they arrive. However, students who arrive late to school must report first to the appropriate administrative office to be recorded and to obtain a pass before being admitted to any class. At the elementary school level, grades K – 4, it is appropriate for a parent/guardian to sign the late student into school with the attendance clerk.

Excessive unexcused lateness to school or class will result in the appropriate level of school discipline. (Refer to page 58 of the Discipline Matrix).

The District recognizes that from time to time compelling circumstances will necessitate that a student arrives late to school or be dismissed before the end of the school day.

The following are acceptable reasons for a late arrival or early dismissal:

- Medical or dental appointments which cannot be scheduled outside of school hours;
- Requirements of a student's individual health care plan;
- Requirements of the student's Individual Education Program (IEP);
- Alternate short or long-term accommodations for students with disabilities
- Medical disability;
- Motor vehicle driver's test;
- Interviews with an admissions officer of an educational institution or other education opportunities such a college visitations (limit of three);
- Family emergency;
- Court appearance;

Students are expected to make up any work they may have missed when they are absent from school or class.

Note: If you know that your child will be absent from school, you should call the school to verify the absence.

Policy Statement

The Board of Education prohibits acts of harassment, intimidation, or bullying of a student. A safe and civil environment in school is necessary for students to learn and achieve high academic standards. Harassment, intimidation, or bullying, like other disruptive or violent behaviors, is conduct that disrupts both a student's ability to learn and a school's ability to educate its students in a safe and disciplined environment. Harassment, intimidation, or bullying is unwanted, aggressive behavior that may involve a real or perceived power imbalance. Since students learn by example, school administrators, faculty, staff and volunteers should be commended for demonstrating appropriate behavior, treating others with civility and respect, and refusing to tolerate harassment, intimidation, or bullying.

For the purposes of this Policy, the term "parent," pursuant to N.J.A.C. 6A:16-1.3, means the natural parent(s) or adoptive parent(s), legal guardian(s), foster parent(s), or parent surrogate(s) of a student. When parents are separated or divorced, "parent" means the person or agency which has legal custody of the student, as well as the natural or adoptive parent(s) of the student, provided parental rights have not been terminated by a court of appropriate jurisdiction.

B.
Intimidation, and Bullying Definition

Harassment,

"Harassment, intimidation, or bullying" means any gesture, any written, verbal or physical act, or any electronic communication, as defined in N.J.S.A. 18A:37-14, whether it be a single incident or a series of incidents that:

1. Is reasonably perceived as being motivated by either any actual or perceived characteristic, such as race, color, religion, ancestry, national origin, gender, sexual orientation, gender identity and expression, or a mental, physical or sensory disability, or by any other distinguishing characteristic;
2. Takes place on school property, at any school-sponsored function, on a school bus, or off school grounds, as provided for in N.J.S.A. 18A:37-15.3;
3. Substantially disrupts or interferes with the orderly operation of the school or the rights of other students; and that
 - a. A reasonable person should know, under the circumstances, that the act(s) will have the effect of physically or emotionally harming a student or damaging the student's property, or placing a student in reasonable fear of physical or emotional harm to their person or damage to their property; or
 - b. Has the effect of insulting or demeaning any student or group of students; or

- c. Creates a hostile educational environment for the student by interfering with a student's education or by severely or pervasively causing physical or emotional harm to the student.

Schools are required to address harassment, intimidation, and bullying occurring off school grounds, when there is a nexus between the harassment, intimidation, and bullying and the school (e.g., the harassment, intimidation, or bullying substantially disrupts or interferes with the orderly operation of the school or the rights of other students).

“Electronic communication” means a communication transmitted by means of an electronic device, including, but not limited to: a telephone, cellular phone, computer, or pager.

C. Student Expectations

The Board expects students to conduct themselves in keeping with their levels of development, maturity and demonstrated capabilities with proper regard for the rights and welfare of other students and school staff, the educational purpose underlying all school activities and the care of school facilities and equipment consistent with the Code of Student Conduct.

The Board believes that standards for student behavior must be set cooperatively through interaction among the students, parents, school employees, school administrators, school volunteers, and community representatives, producing an atmosphere that encourages students to grow in self-discipline. The development of this atmosphere requires respect for self and others, as well as for school district and community property on the part of students, staff, and community members.

Students are expected to behave in a way that creates a supportive learning environment. The Board believes the best discipline is self-imposed, and it is the responsibility of staff to use instances of violations of the Code of Student Conduct as opportunities to help students learn to assume and accept responsibility for their behavior and the consequences of their behavior. Staff members who interact with students shall apply best practices designed to prevent student conduct problems and foster students' abilities to grow in self-discipline.

The Board expects that students will act in accordance with the student behavioral expectations and standards regarding harassment, intimidation, and bullying, including:

1. Student responsibilities (e.g., requirements for students to conform to reasonable standards of socially accepted behavior; respect the person, property and rights of others; obey constituted authority; and respond to those who hold that authority);
2. Appropriate recognition for positive reinforcement for good conduct, self-discipline, and good citizenship;
3. Student rights; and
4. Sanctions and due process for violations of the Code of Student Conduct.

Pursuant to N.J.S.A. 18A:37-15(a) and N.J.A.C. 6A:16-7.1(a)1, the district has involved a broad-base of school and community members, including parents, students, instructional staff, student support services staff, school administrators, and school volunteers, as well as community organizations, such as faith-based, health and human service, business and law enforcement, in the development of this Policy. Based on locally determined and accepted core ethical values adopted by the Board, pursuant to N.J.A.C. 6A:16-7.1(a)2, the Board must develop guidelines for student conduct pursuant to N.J.A.C. 6A:16-7.1. These guidelines for student

conduct will take into consideration the developmental ages of students, the severity of the offenses and students' histories of inappropriate behaviors, and the mission and physical facilities of the individual school(s) in the district. This Policy requires all students in the district to adhere to the rules established by the school district and to submit to the remedial and consequential measures that are appropriately assigned for infractions of these rules.

Pursuant to N.J.A.C. 6A:16-7.1, the Superintendent must annually provide to students and their parents the rules of the district regarding student conduct. Provisions shall be made for informing parents whose primary language is other than English.

The district prohibits active or passive support for acts of harassment, intimidation, or bullying. Students are encouraged to support other students who:

1. Show disdain for acts of harassment, intimidation, and bullying when they see them;
2. Constructively attempt to stop acts of harassment, intimidation, or bullying;
3. Provide support to students who have been subjected to harassment, intimidation, or bullying; and
4. Report acts of harassment, intimidation, and bullying to the designated school staff member.

D. Appropriate Remedial Actions Consequences and

The Board of Education requires its school administrators to implement procedures that ensure both the appropriate consequences and remedial responses for students who commit one or more acts of harassment, intimidation, or bullying, consistent with the Code of Student Conduct. The following factors, at a minimum, shall be given full consideration by school administrators in the implementation of appropriate consequences and remedial measures for each act of harassment, intimidation, or bullying by students.

The use of negative consequences should occur in conjunction with remediation and not be relied upon as the sole intervention approach.

2. Degrees of harm;
3. Surrounding circumstances;
4. Nature and severity of the behavior(s);

If it is the third or subsequent act of harassment, intimidation, or bullying by a student, the Principal, in consultation with appropriate school staff, shall develop an individual student intervention plan which shall be approved by the Superintendent or designee, and may require the student, accompanied by a parent, to complete in a satisfactory manner a class or training program to reduce harassment, intimidation, or bullying behavior.

Appropriate Remedial Actions – Students

Appropriate remedial action for a student who commits an act of harassment, intimidation, or bullying that takes into account the nature of the behavior; the nature of the student's disability, if any, and to the extent relevant; the developmental age of the student; and the student's history of problem behaviors and performance. The appropriate remedial action may also include a behavioral assessment or evaluation including, but not limited to, a referral to the Child Study Team as appropriate; and supportive interventions and referral services, including those at N.J.A.C. 6A:16-8.

The following remedial measures may be considered for the student exhibiting bullying behavior: counseling; restitution and restoration; mediation; behavioral assessment or evaluation, including, but not limited to, a referral to the child study team as appropriate; and/or the development of a behavioral management plan.

Consequences and Appropriate Remedial Actions – Adults

The district will also impose appropriate consequences and remedial actions to an adult who commits an act of harassment, intimidation, or bullying of a student. Consequences and appropriate remedial actions for any staff member who commits an act of harassment, intimidation or bullying may range from behavioral interventions up to disciplinary charges that could result in suspension or termination.

Target/Victim Support

Districts should identify a range of strategies and resources that will be available to individual victims of harassment, intimidation, and bullying, and respond in a manner that provides relief to victims and does not stigmatize victims or further their sense of persecution. The type, diversity, location, and degree of support are directly related to the student's perception of safety.

Sufficient safety measures should be undertaken to ensure the victims' physical and social-emotional well-being and their ability to learn in a safe, supportive, and civil educational environment.

E. Harassment,
Intimidation, and Bullying Reporting Procedure

The Board of Education requires the Principal at each school to be responsible for receiving complaints alleging violations of this Policy. All Board members, school employees, and volunteers and contracted service providers who have contact with students are required to verbally report alleged violations of this Policy to the Principal or the Principal's designee on the same day when the individual witnessed or received reliable information regarding any such incident. All Board members, school employees, and volunteers and contracted service providers who have contact with students, also shall submit a report in writing to the Principal within two school days of the verbal report. The written report shall be on a numbered form developed by the New Jersey Department of Education in accordance with N.J.S.A. 18A:37-15.b.(5). A copy of the form shall be submitted promptly by the Principal to the Superintendent.

The Principal or designee will inform the parents of all students involved in alleged incidents, and, as appropriate, may discuss the availability of counseling and other intervention services. The Principal or designee shall keep a written record of the date, time, and manner of notification to the parents. The Principal or designee shall take into account the circumstances of the incident when providing notification to parents of all students involved in the reported harassment, intimidation, or bullying incident and when conveying the nature of the incident, including the actual or perceived protected category motivating the alleged offense. The Principal, upon receiving a verbal or written report, may take interim measures to ensure the safety, health, and welfare of all parties pending the findings of the investigation.

Students, parents, and visitors are encouraged to report alleged violations of this Policy to the Principal on the same day when the individual witnessed or received reliable information regarding any such incident.

A person may report, verbally or in writing, an act of harassment, intimidation, or bullying committed by an adult or youth against a student anonymously. The Board will not take formal disciplinary action based solely on the anonymous report. The district shall provide a means for a parent to complete an online numbered form developed by the New Jersey Department of Education to confidentially report an incident of harassment, intimidation, or bullying.

A Board member or school employee who promptly reports an incident of harassment, intimidation, or bullying and who makes this report in compliance with the procedures set forth in this Policy, is immune from a cause of action for damages arising from any failure to remedy the reported incident.

In accordance with the provisions of N.J.S.A. 18A:37-18, the harassment, intimidation, and bullying law does not prevent a victim from seeking redress under any other available law, either civil or criminal, nor does it create or alter any tort liability.

The district may consider every mechanism available to simplify reporting, including standard reporting forms and/or web-based reporting mechanisms. For anonymous reporting, the district encourages the use of its web-based reporting mechanism.

A school administrator who receives a report of harassment, intimidation, and bullying from a district employee, and fails to initiate or conduct an investigation, or who should have known of an incident of harassment, intimidation, or bullying and fails to take sufficient action to minimize or eliminate the harassment, intimidation, or bullying, may be subject to disciplinary action.

- g. Execute such other duties related to harassment, intimidation, or bullying as requested by the Principal or district Anti-Bullying Coordinator.

G.
Intimidation, and Bullying Investigation

Harassment,

The Board requires a thorough and complete investigation to be conducted for each report of violations and complaints which either identify harassment, intimidation, or bullying or describe behaviors that indicate harassment, intimidation, or bullying.

Principal's

Preliminary Determination

However, prior to initiating the investigation, the Principal or designee, in consultation with the Anti-Bullying Specialist, may make a preliminary determination as to whether the reported incident or complaint, assuming all facts presented are true, is a report within the scope of the definition of harassment, intimidation, and bullying under the Anti-Bullying Bill of Rights Act, N.J.S.A. 18A:37-14.

The Principal shall report to the Superintendent if a preliminary determination is made that the reported incident or complaint is a report outside the scope of the definition of harassment, intimidation, or bullying. The Superintendent may require the Principal to conduct an investigation of the incident if the Superintendent determines that an investigation is necessary because the incident is within the scope of the definition of harassment, intimidation, and bullying. The Superintendent shall notify the Principal of this determination in writing. An investigation required by the Superintendent must be completed as soon as possible, but not later than ten school days, from the date of the written notification from the Superintendent to the Principal.

The Principal shall complete the written report form developed by the New Jersey Department of Education, in accordance with N.J.S.A. 18A:37-15.b.(5), even if a preliminary determination is made that the reported incident or complaint is a report outside the scope of the definition of harassment, intimidation, or bullying pursuant to N.J.S.A. 18A:37-14. This written report form shall be kept on file at the school, but shall not be included in any student record unless the incident results in disciplinary action or is otherwise required to be contained in a student's record under State or Federal law.

The Principal or designee, upon making a preliminary determination the incident or complaint is not within the scope of the definition of harassment, intimidation, and bullying, shall inform the parents of the parties involved, who may appeal the preliminary determination to the Board of Education and thereafter to the Commissioner of Education in accordance with N.J.A.C. 6A:3.

A Board hearing shall be held within ten business days of receipt of the request for a Board hearing. If the preliminary determination, upon review of the facts presented in the reported incident or complaint, is to continue with the harassment, intimidation, and bullying investigation, the investigation shall be completed in accordance with N.J.S.A. 18A:37-15.b.(6) and this Policy.

The Superintendent shall provide annually to the Board of Education information on the number of times a preliminary determination was made that an incident or complaint was outside the scope of the definition of harassment, intimidation, or bullying for the purposes of the State's monitoring of the school district pursuant to N.J.S.A. 18A:17-46.

The investigation shall be initiated by the Principal or the Principal's designee within one school day of the verbal report of the incident. The investigation shall be conducted by the school Anti-Bullying Specialist in coordination with the Principal. The Principal may appoint additional personnel who are not school Anti-Bullying Specialists to assist with the investigation. Investigations or complaints concerning adult conduct shall not be investigated by a member of the same bargaining unit as the individual who is the subject of the investigation. The

Superintendent or designee will appoint a staff member to complete investigations involving allegations against a staff member serving in a supervisory or administrative position.

The investigation shall be completed and the written findings submitted to the Principal as soon as possible, but not later than ten school days from the date of the written report of the incident. Should information regarding the reported incident and the investigation be received after the end of the ten-day period, the school Anti-Bullying Specialist shall amend the original report of the results of the investigation to ensure there is an accurate and current record of the facts and activities concerning the reported incident.

The Principal shall proceed in accordance with the Code of Student Conduct, as appropriate, based on the investigation findings. The Principal shall submit the report to the Superintendent within two school days of the completion of the investigation and in accordance with the Administrative Procedures Act (N.J.S.A. 52:14B-1 et seq.). As appropriate to the findings from the investigation, the Superintendent shall ensure the Code of Student Conduct has been implemented and may decide to provide intervention services, order counseling as a result of the finding of the investigation, establish training programs to reduce harassment, intimidation, or bullying and enhance school climate, impose discipline, or take or recommend other appropriate action, including seeking further information, as necessary.

The Superintendent shall report the results of each investigation to the Board of Education no later than the date of the regularly scheduled Board of Education meeting following the completion of the investigation. The Superintendent's report shall include information on any consequences imposed under the Code of Student Conduct, any services provided, training established, or other action taken or recommended by the Superintendent.

Parents of involved student offenders and targets/victims shall be provided with information about the investigation, in accordance with Federal and State law and regulation. The information to be provided to parents shall include the nature of the investigation, whether the district found evidence of harassment, intimidation, or bullying, and whether consequences were imposed or services provided to address the incident of harassment, intimidation, or bullying. This information shall be provided in writing within five school days after the results of the investigation are reported to the Board of Education.

A parent may request a hearing before the Board of Education after receiving the written information about the investigation. Any request for such a hearing shall be filed with the Board Secretary no later than sixty calendar days after the written information is provided to the parents. The hearing shall be held within ten business days of the request. The Board of Education shall conduct the hearing in executive session, pursuant to the Open Public Meetings Act (N.J.S.A. 10:4-1 et seq.), to protect the confidentiality of the students. At the hearing, the Board may hear testimony from and consider information provided by the school Anti-Bullying Specialist and others, as appropriate, regarding the incident, the findings from the investigation of the incident, recommendations for consequences or services, and any programs instituted to reduce such incidents, prior to rendering a determination. A redacted copy of the completed written report form developed by the New Jersey Department of Education that removes all student identification information shall be confidentially shared with the Board of Education after the conclusion of the investigation if a hearing with the Board of Education is requested by the parents pursuant to N.J.S.A. 18A:37-15.b.(6)(d).

At the regularly scheduled Board of Education meeting following its receipt of the Superintendent's report on the results of the investigations to the Board or following a hearing in executive session, the Board shall issue a decision, in writing, to affirm, reject, or modify the Superintendent's decision. The Board's decision may be appealed to the Commissioner of

Education, in accordance with N.J.A.C. 6A:3, Controversies and Disputes, no later than ninety days after issuance of the Board of Education's decision.

A parent, student, or organization may file a complaint with the Division on Civil Rights within one hundred eighty days of the occurrence of any incident of harassment, intimidation, or bullying based on membership in a protected group as enumerated in the "Law Against Discrimination," P.L.1945, c.169 (C.10:5-1 et seq.).

H. Range of Responses to an Incident of Harassment, Intimidation, or Bullying

The Board shall establish a range of responses to harassment, intimidation, and bullying incidents and the Principal and the Anti-Bullying Specialist shall appropriately apply these responses once an incident of harassment, intimidation, or bullying is confirmed. The Superintendent shall respond to confirmed harassment, intimidation, and bullying, according to the parameters described in this Policy. The range of ways in which school staff will respond shall include an appropriate combination of counseling, support services, intervention services, and other programs. The Board recognizes that some acts of harassment, intimidation, or bullying may be isolated incidents requiring the school officials to respond appropriately to the individual(s) committing the acts. Other acts may be so serious or part of a larger pattern of harassment, intimidation, or bullying that they require a response either at the classroom, school building, or school district level or by law enforcement officials.

For every incident of harassment, intimidation, or bullying, the school officials must respond appropriately to the individual who committed the act. The range of responses to confirmed harassment, intimidation, or bullying acts should include individual, classroom, school, or district responses, as appropriate to the findings from each incident. Examples of responses that apply to each of these categories are provided below:

1. Individual responses can include consistent and appropriate positive behavioral interventions (e.g., peer mentoring, short-term counseling, life skills groups) intended to remediate the problem behaviors.
2. Classroom responses can include class discussions about an incident of harassment, intimidation, or bullying, role plays (when implemented with sensitivity to a student's situation or involvement with harassment, intimidation, and bullying), research projects, observing and discussing audio-visual materials on these subjects, and skill-building lessons in courtesy, tolerance, assertiveness, and conflict management.
3. School responses can include theme days, learning station programs, "acts of kindness" programs or awards, use of student survey data to plan prevention and intervention programs and activities, social norms campaigns, posters, public service announcements, "natural helper" or peer leadership programs, "upstander" programs, parent programs, the dissemination of information to students and parents explaining acceptable uses of electronic and wireless communication devices, and harassment, intimidation, and bullying prevention curricula or campaigns.
4. District-wide responses can comprise of adoption of school-wide programs, including enhancing the school climate, involving the community in policy review and development, providing professional development coordinating with community-based organizations (e.g., mental health, health services, health facilities, law enforcement, faith-based organizations), launching harassment, intimidation, and bullying prevention campaigns.

DRUGS, ALCOHOL, TOBACCO, STEROIDS, & VAPES (SUBSTANCE ABUSE)

Board Policy 5530 and its accompanying regulation pertain to the education of our students with regard to the use of drugs, alcohol, tobacco and steroids. This policy and regulation also govern the identification, remediation, examination, treatment, discipline and, where applicable, the readmission to school, of those students who use, possess, distribute or are suspected of being under the influence of drugs, alcohol, tobacco or steroids.

The following summarizes some important points in this policy, regulation and the applicable law in this area. Parents/Guardians and students are encouraged to review the entire policy and regulation available through the District website. This is intended only as a summary and this does not revise or amend applicable policies/regulations in any way. In the event of any differences between this summary and any policies or regulations, the policies and regulations shall prevail.

EDUCATION PROGRAM

The District has developed a comprehensive program of drug, alcohol, tobacco, steroid, and vaping education. Pursuant to N.J. S. A. 18A:40A-1 et seq., a Board approved comprehensive drug, alcohol, tobacco and steroid education has been infused in the health curriculum, grades 7-12 offering a minimum of 10 clock hours per school year.

IDENTIFICATION AND REMEDIATION OF STUDENTS

The District has developed a process to identify and remediate students involved with drugs, alcohol, tobacco and steroids. If a teacher, administrator, guidance counselor or other staff member believes that the student may be a substance abuser, that is that he or she may be involved with drugs, alcohol, tobacco, vaping or steroids, *but that the student is not presently under the influence of these substances*, the teacher, administrator, guidance counselor must notify the Student Assistance Counselor [SAC]. Additionally, students and parents/guardians may also seek the advice of the SAC's. The SAC will then set up an interview with the student to assess the extent of the student's involvement with these substances and, where appropriate, refer pupils and their families to organizations and agencies approved by the Department of Health to offer competent professional treatment. Treatment will *not* be at the expense of the District.

The District recognizes that devices used to smoke tobacco products may also be used to consume other drugs or substances. Students found to be in possession of these devices may also be referred for medical evaluation and drug screening.

EXAMINATION OF STUDENTS

The District has developed the following procedure for the examination and treatment of students suspected of being under the influence of drugs, alcohol, tobacco, or steroids to determine the extent of the student's drug or alcohol use or dependency.

- When it appears to any teaching staff member, school nurse or other educational personnel that a student may be under the influence of substances, as defined in law, including but are not limited to, alcohol, controlled dangerous substances and anabolic steroids, the teaching staff member, school nurse or other educational personnel shall report the matter as soon as possible to the school nurse, the Student Assistance Coordinator and the Principal or designee in addition to completing the Referral for Medical Evaluation and Drug/Alcohol Screen Form.
- The Principal or designee shall immediately notify the parents/guardians and the Superintendent/designee.
- The student will receive a preliminary screen conducted by the school nurse and the principal/designee shall arrange for an **immediate examination of the student**, including alcohol/drug screen. This examination may be performed by a physician selected by the family or by the Board of Education Medical Inspector at

DRUGS, ALCOHOL, TOBACCO, STEROIDS, & VAPES (SUBSTANCE ABUSE)

- no cost to the family. However, it is the parent's responsibility to immediately take the student for the medical testing.
- While the student is waiting for the examination (examination must be completed within 2 hours), whether it is to be performed by a physician selected by the family, the Medical Inspector or an emergency room physician, the student must be supervised by a District staff member or parent/guardian. The student is not allowed to smoke, eat or drink anything with the exception of water until the examination is complete.
- If a physician is selected by the family, the family will bear the cost of the examination. Since time is of the essence in these types of examinations, the parent/guardian must pick up their child and arrange for an examination within two hours of being notified by the school that their child is suspected of being under the influence. The parent/guardian must accompany their child to the examination, submit the appropriate District form to the doctor, and arrange for any necessary authorizations to be executed so that the District may receive the results of the examination.
- If the parent/guardian is unreachable or is unable to accompany the student to the examination within the two-hour period, the principal/designee will act in loco parentis and transport the student to the Board of Education Medical Inspector for the medical examination including the drug/alcohol screen. The parent/guardian may also consent to use of the Board of Education Medical Inspector at no charge and accompany their child to the examination. Once again, the appropriate District form will be submitted to the physician.

- If the physician chosen by the family or the Board of Education Medical Inspector is not available to conduct an examination within a two-hour period, the law permits the principal/designee to accompany the student to the emergency room for the examination including a drug/alcohol screen. The parent/guardian may accompany the student, if available, and the appropriate District form will be submitted to the emergency room physician. *The District will not bear the cost of this emergency room examination.*
- If the parent/guardian refuses to allow the student to be examined and to undergo a drug/alcohol screen, all treatment/disciplinary procedures outlined in District policy, regulation and the Student Code of Conduct will be implemented as if the student tested positive for drugs or alcohol. Additionally, violations of the Compulsory Education Act may result and child neglect laws may apply.
- Within 24 hours, and oftentimes much sooner, the examining physician will return a written report of the examination on the District form to the parent/guardian. This form basically clears the student to return to school as the medical examination verifies that alcohol or other drugs do not interfere with the student's physical and mental ability to perform in school. This "OK to Return" to school may be provisional upon the results of the drug/alcohol screen.
- If the parent/guardian does not receive the written report within 24 hours the student may return to school pending the results of the report and the drug/alcohol screen.

The procedures detailed in this section refer to suspected use of alcohol or drugs. Similar procedures will be used for the suspected use of anabolic steroids. Those procedures may be found in Board Regulation 5131.6

TREATMENT AND DISCIPLINE OF STUDENTS

The District has developed the following procedures for the treatment and discipline of students who use, possess, or distribute drugs, alcohol, vapes, tobacco, and steroids in violation of law or District policy and regulation in this area. These include referral to an appropriate drug/alcohol abuse program as recommended by the Department of Health where applicable.

DRUGS, ALCOHOL, TOBACCO, STEROIDS, & VAPES (SUBSTANCE ABUSE)

Treatment - Students Who Test Positive for Alcohol, Drugs or Steroids

- If there is a positive finding for alcohol or other drugs, the student and parent will be required to meet with the Student Assistance Coordinator or other appropriately trained teaching staff member upon the student's return to school. The purpose of this meeting is to determine the extent of involvement and possible need for treatment. The SAC or other staff member may conduct a reasonable investigation including interviews with the student's teachers as well as his/her parents. The SAC or other staff member may consult with experts in the field of substance abuse as may be necessary and appropriate. The student will continue to meet with the SAC or other staff member for up to five group or individual sessions and if deemed clinically appropriate accept a referral for additional outpatient substance abuse counseling. Additionally, the student/parent/guardian may be asked to consent to random drug testing of the student.
- If it is determined that the student's involvement with one of these substances represents a danger to the student's health and well-being, the SAC or other staff member shall provide the parent/guardian with referral information to an appropriate treatment program, which has been approved by the Department of Health.
- These treatment options also apply to a student who is found in possession or who distributes drugs, alcohol, or steroids. Treatment options for those students who are found to use, possess or distribute tobacco products are cited below.
- Additionally, the SAC and administration shall maintain ongoing communication with the probation/parole officers and all other agencies involved with that student.

Discipline - Students Who Test Positive for Alcohol, Drugs or Steroids

- **1st offense:** range of two to four days of OSS (out-of-school suspension)
 - Hearing with student, parent, SAC and grade level administrator to review the treatment plan and expectations of the student and parent or guardian.

 - **2nd offense:** and five to ten days of OSS: Possible hearing before the Board of Education
subsequent offenses: to consider expulsion.
- Discipline for students who are found to use, possess or distribute tobacco products are cited below.

Doctor's Express/AFC Urgent Care 601 W. Union Ave (located in the Shop Rite Shopping Center next to Quest Labs) Bound Brook, NJ
5. Doctor's Express/AFC Urgent Care will evaluate the student, collect and send out the specimen to their reference lab.
6. Doctor's Express/AFC will complete the school-supplied paperwork and provide the paperwork back to the student. The student and parent/guardian will also need to sign a lab-testing waiver.
7. Doctor's Express/AFC will send the lab report to the school.

TOBACCO USE

PROHIBITION

The Franklin Township Public School District recognizes that tobacco use is a public health issue and that tobacco is a highly addictive gateway drug. As expressed in Board policy, the use of tobacco products by students, faculty, staff, school visitors or volunteers, on school grounds, in school buildings and facilities, on school property or at school-related or school-sponsored events is prohibited. Additionally, the possession of tobacco products by a student on school grounds, in school buildings and facilities, on school property or at school-related or school-sponsored events is prohibited.

DEFINITIONS

For the purposes of this Student Code of Conduct,

Tobacco Product is defined as cigarettes, cigars, blunts, bidis, pipes, chewing tobacco and all other forms of smokeless tobacco, rolling papers, and items and vaping devices or devices that may be used to administer tobacco or other substances.

Tobacco use includes, but is not limited to, smoking, chewing, dipping, or any other use of tobacco products including e-cigarettes.

Since new products in this area continue to be introduced, the above lists are not inclusive; other prohibited items in this area may be added at the Principal's discretion.

PREVENTION

The Franklin Township Public School District is committed to the prevention of tobacco use amongst its students. Prevention education is infused into the health curriculum. Additionally, assemblies, prevention programs and activities are conducted throughout the school year at the different schools in the District at age appropriate levels. Further information on these programs is available through the Student Assistance Counselors.

TREATMENT

Intervention is the first response in addressing violations of the District's prohibition of tobacco use. Students who violate the District's Tobacco-Use Policy will be referred to the Student Assistance Counselor, guidance counselor, school nurse, or other health or counseling services for health information, counseling and possible referral to a cessation program.

Parents/guardians will be notified of all violations and actions taken by the school.

DISCIPLINE

While intervention is the preferred response to the possession or use of tobacco products, the Discipline Matrix on page 60 outlines the disciplinary action associated with tobacco related violations.

PHYSICAL AGGRESSION

At both the elementary and secondary levels, the District's policies and regulations regarding student fighting and other acts of physical aggression are designed to prevent and discourage students from resolving conflict by engaging in physical aggression.

Physical confrontation is a dangerous and inappropriate method for solving problems. Students are expected to solve problems through proper channels and in an appropriate manner. If a student is in a fight or encourages others to fight, or video records a fight, he/she will receive disciplinary consequences REGARDLESS of who started it.

Pushing, shoving, wrestling, play fighting, fighting, etc., will be considered as physical aggression regardless of intent.

Students involved in fighting, mob action (any fight involving more than two people), instigating others to fight, intimidating, or harassing other students shall be subject to school consequences at the discretion of the principal, including the possibility of restitution, conflict resolution, suspension, and/or recommendation to the Board of Education for expulsion. At the secondary level, at the discretion of the principal, consequences may include police involvement, including a review of the total circumstances for possible criminal charges and/or Stationhouse Adjustment.*

In determining the appropriate consequence for student acts of physical aggression, the school administration may provide a continuum of actions designed to remediate and impose more severe consequences for repeat offenses.

Students who have been involved in three or more acts of physical aggression or any act of physical aggression resulting in serious bodily injury or risk to the health and safety of others may be referred to the Franklin Township Police Department for review, investigation and/or referral to the Somerset County Prosecutor's Office for criminal charges.

**A Stationhouse Adjustment is an alternative method that can be used to support students who have committed minor offenses. The intent of the stationhouse adjustment program is to engage students in restorative practices such as community service, conflict resolution support, and provide opportunity for students to reflect and gain a deeper understanding for resolving conflict in more constructive ways. This type of intervention for serious or repeat offenders helps students to avoid the stigma of a formal juvenile delinquency record.*

HANDLE WITH CARE PROCESS AND PROTOCOLS

Handle With Care is a behavior management system to guide staff when dealing with behaviorally challenged student situations. The purpose is to preserve the dignity of student and staff; maintain the safety of student and staff; and to foster a positive learning environment.

Franklin Township School District provides annual training and follow-up support for staff on the techniques of Handle with Care. Although not all staff has been trained in the Handle With Care restraint techniques, all staff will adhere to the district policy and procedures outlined in this process. Regardless of whether staff have been trained in the Handle With Care Techniques, any staff person may utilize reasonable restraint to prevent students from causing harm to themselves or others. This is in accordance with NJ State Law and BOE policy.

Handle With Care relies heavily on de-escalation strategies to assist staff in managing student disruptive behaviors. Physical restraint is only used in situations where a student's behavior is imminently a threat to their safety or the safety of others. When a student demonstrates behaviors that require physical restraint the administration and staff are required to do the following:

1. Physical restraint is used only in an emergency in which the student is exhibiting behavior that places the student or others in immediate physical danger;
2. A student is not restrained in the prone position, unless the student's primary care physician authorizes, in writing, the use of this restraint technique;
3. Staff members who are involved in the restraint of a student receive training in safe techniques for physical restraint from an entity determined by the Board of Education to be qualified to provide such training, and that the training is updated at least annually;
4. The parent of a student is immediately notified when physical restraint is used on the student. This notification may be by telephone or electronic communication. A post-incident written notification report of the incident of physical restraint shall be provided to the parent within forty-eight hours of the occurrence of the incident;
5. Each incident in which physical restraint is used is carefully and continuously visually monitored to ensure it was used in accordance with established procedures set forth in Policy and Regulation 5561 – Use of Physical Restraint and Seclusion Techniques for Students with Disabilities, developed in conjunction with the entity that trains staff in safe techniques for physical restraint, in order to protect the safety of the child and others; and
6. Each incident in which physical restraint is used is documented in writing in sufficient detail to enable staff to use this information to develop or improve the behavior intervention plan for students with IEPs.
7. Once the restraint situation has ended, have the onsite school nurse assess the student.

DISCIPLINE FOR ALL ACTS OF STUDENT MISBEHAVIOR

DISCIPLINE PROCESS

- The discipline process is triggered when a student engages in misconduct that is observed by a school employee or when an investigation from a complaint or anonymous tip is completed. Faculty use of behavior management strategies in their classroom is considered the first line of discipline for minor misconduct. District administrators and staff have the right to question students regarding any situation that has disrupted or may jeopardize the safety of the school environment.
- The building principal has the authority to assign appropriate disciplinary consequences for any student behavior that may disrupt the safety and security of the school culture whether or not it has been identified specifically in the District Student Code of Conduct.

As such, teachers may utilize the following strategies prior to referring a student for administrative disciplinary action (this is not a comprehensive list):

- Conferencing with the student;
- Contacting the student's parent/legal guardian;
- Assigning a teacher detention;
- Seeking assistance from colleagues to create a plan to support the student with meeting positive behavioral expectations;
- Developing a Positive Behavior Chart;
- Reaching out to request Tier 2 Positive Behavior Supports
- Documenting student misconduct using Demerit Tab or Minor Incident of Misconduct

MISCONDUCT WARRANTING ADMINISTRATIVE ACTION

The student may be referred to the building administrator when:

- a) the nature of the misconduct warrants immediate attention, and/or
- b) the problem behavior continues despite the use of teacher-mediated behavior management and disciplinary strategies.

Administrators who receive students for disciplinary action consider the type, scope, and severity of the infraction in order to assign an appropriate consequence within the framework provided in the Code of Conduct.

Misconduct that warrants the lowest consequence level is characterized as a first offense or an isolated incident. Misconduct that warrants a higher consequence level is characterized by multiple offenses documented by the referring teacher and/or multiple referrals to the building administrator.

Some incidents of misconduct may meet criteria for Law Related Violations and Consequences and will be managed according to the Discipline Matrix beginning on page 60.

Note:

- *The building Principal has the authority to assign appropriate disciplinary consequences for any student behavior that may disrupt the safety and security of the school culture whether or not it has been identified specifically in the District Student Code of Conduct.*
- *The building Principal has the authority to suspend student privileges for violations that jeopardize the rights of other students to receive an education in a safe and secure environment.*
- *Any person, including but not limited to students, school employees, parents, other adults or juveniles, who enters on any school property, any school building, or school bus, may be video and/or audio taped as part of the measures taken by the District to provide a safe, secure, and orderly environment. Information recorded on school surveillance equipment may be used as evidence in disciplinary and/or legal proceedings.*

RESTORATIVE PRACTICES

Effective restorative justice programming and implementation does not remove penalties for behavior. Rather it makes consequences more intentional. Restorative discipline is a whole-school, relational approach to building school climate and addressing student behaviors that fosters belonging over exclusion, social engagement over control, and meaningful accountability and consequences over a focus on punishment alone to the end of improving student performance.

The Difference Between the “Traditional Approach” and the “Restorative Approach”

Traditional Approach

School rules are broken

Justice focuses on establishing guilt

Justice is directed at the offender and the victim is ignored

Rules and intent outweigh whether the outcome is positive or negative

Limited opportunity for remorse or making amends

Restorative Approach

People & relationships are harmed

Justice identifies needs and responsibility

Offender, victim, and school all have a direct role in the justice process

Offender is responsible for harmful behavior repairing the harm, and working towards positive outcomes

Opportunities given to express remorse and to make amends

Examples of how Restorative Practice may be used at each of the four levels of the disciplinary process:

LEVELS OF DISCIPLINARY CONSEQUENCES

The addendum to the District Student Code of Conduct addresses the additional behavioral expectations for all District students associated with the reopening of schools in the midst of the COVID crisis. The addendum is focused on three main areas:

- Identifying specific behaviors that may threaten the health, welfare, and safety of students, and establish a district-wide protocol aimed at reinforcing health and safety measures that protect students and staff
- Provide teachers and building administrators with tools that support and reinforce behaviors that promote health and safety practices and
- Provide teachers and building administrators with appropriate options to address student behavior that may have a negative impact on the health and welfare of others.

This addendum to the Student Code of Conduct will be enforced on all school grounds, on the school bus traveling to and from school, and at all school activities, functions, and events. Students who do not comply with the student behavioral expectations outlined in this addendum will be issued appropriate consequences.

Level 1 Response

- Teacher (or other staff person in the area) will redirect the student who is out of compliance with student behavior expectations. May also include conferencing one-on-one with the students, reassigning seats, communication with parent/guardian, or use of other tier one strategies. The focus of the level 1 response is to resolve the behavior, re-establish compliance with behavior expectations and resume the activity in a safe and healthy environment. (See Restorative Practice Chart - Level 1)

Level 2 Response

- Office Referrals which are the result of more serious student behavior violations or reflect a pattern of noncompliance with the established school behavior expectations. Interventions include:
 - Conferencing with the student, parent/guardian, administrator, SAC and/or counselor, and other school personnel as needed to develop a plan of action that leads to student conforming to school behavior expectations
 - Assigning a learning activity or (restorative) reflection task that focuses on the positive behavior expectation and review with supportive staff (e.g. counselor, mentor, SAC)
 - Administrator follow-up with referring staff member in plan
 - Establishing student Tier 2 supports and/or check-in procedures to provide additional support
 - Repeat violations at this level may be referred to Level 3
(See Restorative Practice Chart - Level 2)

Level 3 Responses

- Reserved for serious violations that pose a direct threat to the health, safety, and welfare of students and staff. Interventions and consequences include:
 - “Removal from in-person attendance for (1-5 days)
 - Student and Parent/Guardian meeting with administrator, SAC to develop a reentry to in-person learning plan aimed at preventing a re-occurrences
 - Establish Student Check-in/ Check-out
 - Referral for Tier 3 Function Based Assessment and Positive Behavior Support Plan via I&RS or CST as needed
(See Restorative Practice Chart - Level 3)

Level 4 Responses

- Reserved for the most serious violations as identified in NJSA 18A: 37-2 - 18A: 37-7. The principal will initiate the following:
 - Immediate removal from in-person attendance and suspension from all school activities (5-9 days)
 - Referral to Central Office to determining an appropriate educational program and placement
(SEE RESTORATIVE PRACTICE CHART - LEVEL 4)

In accordance with N.J.A.C. 6A:14-2.8

Before making any formal recommendation for suspension of a student who has been classified, the building principal must determine whether the student has been suspended for ten (10) cumulative school days during the current school year. The principal, in consultation with the CST case manager, shall determine whether a series of short-term suspensions constitutes a change of placement sufficient to meet the “10 day” limit before any formal recommendation of suspension is made.

School district personnel may, on a case-by-case basis, consider any unique circumstances when determining whether or not to impose a disciplinary sanction or order a change of placement for a student with a disability who violates the student code of conduct.

STUDENTS IN PRE-KINDERGARTEN THROUGH GRADE 2

In order for young children to fully and consistently participate in early learning experiences, we need to ensure that they are in school and able to positively engage in educational opportunities. Removing young children from school through suspensions reduces their participation in academic, behavioral and social learning experiences that are critical to their positive development.

P.L. 2016, Chapter 45, signed into law by Governor Christie, places limits on out of school suspension as follows:

1. Students in grades kindergarten through grade two:
 - a. Shall not be expelled from school, except as provided pursuant to the “Zero Tolerance for Guns Act”
 - b. Shall not receive an out-of-school suspension, except when the suspension is based on conduct that is of a violent or sexual nature and endangers other, and
2. Students in preschool:
 - a. Shall not be suspended and shall not be expelled, except as provided pursuant to the “Zero Tolerance for Guns Act”.

To proactively address the needs of students in preschool through grade two, the law requires schools to implement an early detection and prevention program to identify students who are experiencing behavioral and disciplinary problems and provide behavioral support. The behavioral supports may include, but are not limited to: remediation of problem behaviors, positive reinforcement, supportive interventions and referral services. Positive approaches such as these address the underlying cause or purpose of the behavior, reinforce positive behavior, and have been associated with increases in academic engagement, academic achievement, and reductions in suspensions and school dropouts.

HOW AND WHEN TO REPORT CHILD ABUSE/NEGLECT

Standardized Training Materials – Reporting Child Abuse and Neglect: What School Personnel Need to Do

In New Jersey, any person having reasonable cause to believe that a child has been subjected to abuse or acts of abuse should immediately report this information to the State Central Registry (SCR). If the child is in immediate danger, call 911 as well as **1-877 NJ ABUSE (1-877-652-2873)**. A concerned caller does not need proof to report an allegation of child abuse and can make the report anonymously.

What information will I be asked to provide to the hotline screener?

SCR screeners are trained caseworkers who know how to respond to reports of child abuse/neglect. Whenever possible, a caller should provide all of the following information:

- **Who:** The child and parent. Caregiver's name, age and address and the name of the alleged perpetrator and that person's relationship to the child.
- **What:** Type and frequency of alleged abuse/neglect, current or previous injuries to the child and what caused you to become concerned.
- **When:** When the alleged abuse/neglect occurred and when you learned of it
- **Where:** Where the incident occurred, where the child is now and whether the alleged perpetrator has access to the child.
- **How:** How urgent the need is for intervention and whether there is a likelihood of imminent danger for the child.

Do callers have immunity from civil or criminal liability?

Any person who, in good faith, makes a report of child abuse or neglect or testifies in a child abuse hearing resulting from such a report is immune from any criminal or civil liability as a result of such action. Calls can be placed to the hotline anonymously.

Is it against the laws of New Jersey to fail to report suspected abuse/neglect?

Any person who knowingly fails to report suspected abuse or neglect according to the law or to comply with the provisions of the law is a disorderly person.

What happens after I make the call?

When a report indicates that a child may be at risk, an investigator from the Division of Child Protection and Permanency (formerly Youth and Family Services) will promptly investigate the allegations of child abuse and neglect within 24 hours of receipt of the report.
