ODD & EVEN NUMBERS

2 Players:

GAME RULES

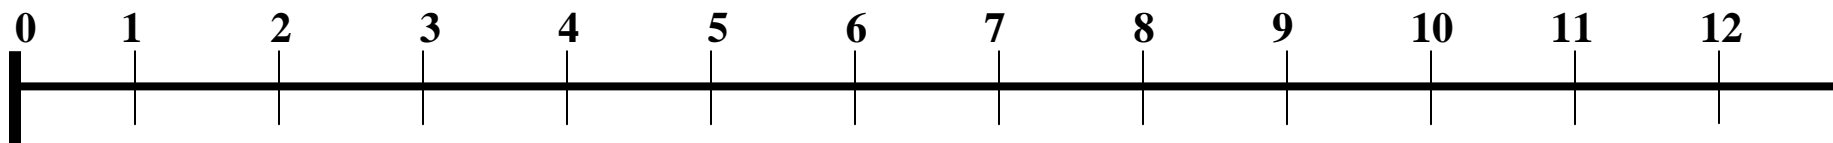

Need: EDM Cards & Game board

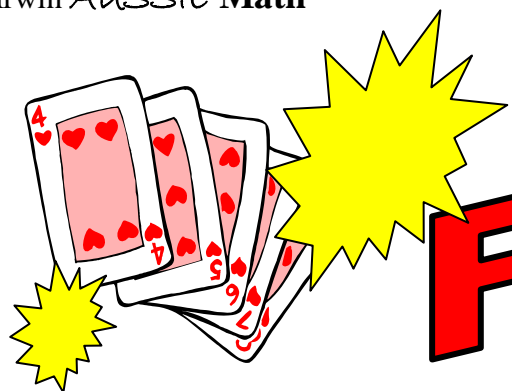

- **Card numbers (0-9 only) are face-down.**
- Each player draws 4 cards. Player A makes the highest possible ODD 2-digit number from his/her 4 cards. Player B makes the highest possible EVEN 2-digit number from his/her 4 cards.
- **If either player is unable to make their ODD or EVEN numbers from the 4 cards drawn, they can draw extra cards until they make their odd or even number.**
- The player with the highest number then has to compare the numbers by using greater-than, less-than or equal symbols between the odd & even numbers.
- **If the highest number player completes the comparison activity correctly, they get a tally mark for winning that round.**
- After each game players swap roles. Odd becomes even and even becomes odd.
