

## Summer Reading **for** Grades 5-8

It is critically important that students read over the summer and the more they read, the better!

We encourage students to read every day and to log their reading and short responses on the attached Summer Reading Log.

Students who complete 15 entries (one sheet front and back) will receive extra credit from their Language Arts teacher, as well as special recognition when we return to school in the fall.

If students complete additional log sheets, for each additional sheet, they will receive a homework pass.

Happy summer and happy reading!
