Internet Safety Protection

*The **Children's Internet Protection Act**, requires school districts to **develop and ensure education** is provided to every student regarding **appropriate online behavior**, including students interacting with other individuals on **social networking sites** and/or chat rooms, and **cyberbullying awareness and response**.*

Franklin Township Public Schools:

- **protects students' use** of electronic communication by assigning student email accounts which are processed through the district server;
- **has a filter which blocks** inappropriate material from school based computers and chrome books and which requires an adult log in to override;
- **utilizes Go Guardian to alert** administration of student attempts to access inappropriate material, when warranted, these reports are typically responded to the following school day.

Internet Safety Protection

Students in grades 3 - 12 are provided education via assemblies and course work regarding appropriate online behavior including the use of social networking sites, and cyberbullying awareness and response.

Additionally, descriptions and consequences for technology based offenses are listed in the district Student Code of Conduct.

Policy and Regulation 2361 are posted on the district website for your review, please email internetsafety@franklinboe.org with any questions.
